

BRITISH EXPERT JOINS INQUIRY IN SEA TRAGEDY

Cunard Line Superintendent Will Advise U. S. Court During Remainder of Quiz.

MORE RADIOGRAMS TO BE INTRODUCED

So Far Very Little Definite Information Has Been Gleaned From Many Witnesses.

New York, November 18.—(AP)—Two nautical advisors, representing the American and British governments respectively, will sit with United States Commissioner O'Neill when the federal inquiry into the sinking of the Lamport and Holt liner Vestris is resumed tomorrow. United States Attorney Charles H. Tuttle announced today.

Mr. Tuttle also indicated that he expects to obtain possession of additional wireless messages sent from the stricken liner.

The federal attorney did not reveal whether these messages had been sent before or after the S O S sent three hours before the liner went down last Monday afternoon with the loss of 110 lives. A search of the records of wireless stations for possible messages exchanged between Captain Carey and the "w" or their agents was ordered by Mr. Tuttle when the investigation opened, and among the first witnesses called Friday were the assistant radio operators of the ship from whom the federal attorney sought to learn whether such messages had been dispatched.

From one of the radio men, Charles Vesche, he obtained a statement that "maybe the captain had sent a message informing his owners of the ship's plight," but the operator denied personal knowledge of the message.

Captain Henry McKenney, marine superintendent of the Cunard and allied lines, has been designated by the British government to act as its representative in the capacity of nautical advisor when the hearing is resumed.

Mr. Tuttle said today. The attorney said tomorrow he would recommend the appointment of a "distinguished marine expert" to be the advisor on behalf of the United States government, but did not reveal the name of his appointee.

Mr. Tuttle said the advisors would sit with the United States commissioner and would be permitted to question witnesses, but that he would conduct the inquiry and the findings would be made by the commissioner.

The federal attorney intended to discuss his plans for the resumption of the hearing tomorrow or to say who he expected to call to testify or what direction the questioning would take. He said later he plans to investigate the makeup of the ship's cargo on her last voyage, but added that could wait until after the questioning of witnesses who might leave the jurisdiction of the court if they were not called at once.

Mr. Tuttle said tonight that all records of messages concerning the Vestris which were received by the Tucker, Norton, N. J., and Chatham, Mass., stations of the Radio Corporation of America will be in his hands tomorrow.

"I expect also to have reports from other stations that may have picked up Vestris messages," the federal attorney added. "I will also have reports from the weather bureau at Washington, D. C., which will give light concerning the weather Vestris may have made to the bureau."

"All messages from the Vestris picked up by the steamship Voltair, sister ship of the Vestris, were turned over to my office today by a representative of Lamport & Holt."

Lucky Prince.
Nairobi, British East Africa, November 18.—(AP)—The Prince of Wales and his party who have been having exceptionally good luck on their hunting expedition arrived at Arusha Friday after a delay at Longido due to a breakdown of their motor car. At Moshi the prince witnessed a big native dance.

Snow Adds to Peril Of Flood Refugees Through Kansas

With End of Rains and Crest of Flood Homeless Hundreds Struck by Cold.

NINE KNOWN DEAD IN SWOLLEN RIVERS

Winfield Is Completely Isolated and Reports of Deaths There Cannot Be Verified.

Kansas City, November 18.—(AP)—Week-end floods in Missouri, Kansas and Oklahoma tonight had claimed at least nine lives and caused damage that will run into millions of dollars.

Although the worst danger was over at most points affected, a cold wave that followed the torrential rainfall of Friday and Saturday in the southwest rendered the plight of hundreds of refugees and relief workers pitiable tonight. Snow was reported at many points.

Besides the known nine dead, several persons missing were believed to have drowned. Farmers and railroads suffered the heaviest damage. Many villages and towns in the flood area were isolated due to inundation of highways and railroad tracks and damage to communication lines. These conditions have made impossible a comprehensive check up on the toll at many points.

List of Drowned.
Augusta, Kan., appeared to have been the hardest hit in flood damage, having suffered an estimated loss of \$500,000. The White Eagle Oil Refinery and Santa Fe railroad were the heaviest losers there.

The known dead:
C. R. Ralph, Shiner, Dr. J. Ward Smith, Mrs. C. C. Jones and her two small daughters, drowned near Ottawa, Kan., yesterday afternoon when their car was swept into flood waters.

A. R. Hudson, Joplin, Mo., drowned near Paola, Kan., when his motor car was swept into flood waters.

C. E. King, coal miner, killed when he slipped on wet board and fell against high voltage wire near Mulberry, Kan.

Grace Tucker, drowned when she stepped off porch of her home near Wellington, Mo., into flood waters.

Mrs. J. Payne, drowned when thrown from wagon in which she was crossing swollen stream near Hartshorn, Okla.

J. Payne, husband of the drowned Oklahoma woman, and his child, who also were riding in the wagon which was capsized in the swollen waters, were missing tonight. The mother's body was found far downstream from the crossing place.

Others missing were two men who drove into flood waters near Kansas.

ALABAMA LEADER JAILED AS ESCAPEE FROM RALEIGH PEN

Raleigh, N. C., November 18.—(AP)—The philanthropic and business career of "J. B. Davis," of Sylacauga, Ala., was ended today when John H. Cameron was brought back to the state prison, here, from which he escaped four years ago.

Cameron, known as Davis in Alabama, had become one of the leading citizens of the section in which he resided, owning large tracts of land, and having a reputation as a philanthropist. His word was his bond, residents of Sylacauga declared.

Informed that Cameron, who escaped in 1914 after serving one year of a 20-year sentence for second degree murder, was living in Alabama, Warden J. H. Norman made the trip to Sylacauga where, he said, the sheriff would not arrest the man and deputies displayed distaste for their mission. The fugitive, however, accepted his capture calmly, the warden said.

James Webb, another escaped convict, was also brought back after being arrested in the same Alabama town. Webb escaped last March after serving eighteen months of a three to five year sentence for larceny.

COMMUNITY CHEST WORKERS LAUNCH CAMPAIGN TODAY

Atlanta Asked This Week To Meet Obligation of Humanity to Needy in City.

Atlanta will be asked today, and every day this week, to fulfill its obligations of charity and human service.

"In the name of humanity," as the campaign slogan puts it, an army of 1,500 workers will take the field to give every man and woman in Atlanta an opportunity to participate in the work of relief and social reconstruction which the Community Chest and its 38 agencies have undertaken for 1929.

In the front rank is a group of devoted women, organized under Mrs. Samuel Lumpkin, to present to Atlanta homes the message of "constructive philanthropy" which the chest represents. Groups of men have been organized to enlist the support of workers in every field of activity, and none will miss the opportunity to give to the cause which H. M. Atkinson, president of the chest, and Henry C. Hieiss, general campaign chairman, described in their final statements as "the obligation of every person."

Campaign workers will assemble every day at 12:30 o'clock at the Ansley hotel for luncheon and report of results, the meals to be given by the hotel management as a token of its interest in the campaign and the cause it serves. The first of these assemblies will be held today.

In every phase of the campaign of the chest administration, economy has been established. Under the recent reorganization of the chest, a reduction of administrative expenses by 40 per cent, or nearly \$1,000 a month, has been brought about, this sum being available for use by the 38 agencies in their work of practical helpfulness and development.

This reorganization has developed also closer and broader contacts between the chest and the public, with a board of directors that includes a woman and women drawn from every interest and activity of the community, and representative of every aspect of the city's life.

In the agencies appealing for public support there appears this year a new theme, that of the Community Chest and Mop shop, which has been established by the Community Employment service as a start of an extensive plant in which the handicapped members of the community, the blind and crippled who are barred by their defects from ordinary occupations, may find work. This is one of the agencies which will be organized as the beginning of an institution which will give helpful service to the unfortunate handicapped men and women, and which will take the mendicants from the street.

This institution is described in campaign statements as crystallizing the policy of the chest, which is one of "constructive philanthropy" as much as relief in cases of immediate need, as self-respect and self-reliance, as well as support of immediately needy cases, are the objectives of the expert and planned social service which the chest societies perform, according to a statement by Mr. Atkinson.

QUEST FOR KILLER OF GIRL FOILED

Father and Three Boys Questioned But Are Released; Body Found Half Submerged in Creek.

Newcastle, Pa., November 18.—(AP)—The quest for the slayer of Emma Alley, 16-year-old school girl found dead by rabbit hunters along a small stream near here Saturday, had failed to bear results up to tonight, according to investigating officers. A number of suspects had been questioned.

The young woman disappeared Friday night, leaving home about 10 o'clock in an automobile whose driver had summoned her by sounding his horn in front of her father's house. Miss Alley had been alone on the road and her body carried to the bank of the creek. Blood was found along the highway, it was said.

The girl had been severely beaten about the head. Doctors said concussion of the brain probably caused death.

Sam Alley, father of the victim, also was questioned. He said he knew nothing about his daughter's disappearance, and added that he even was unaware that she had left home Friday evening. The slaying, he said, was made known to him when he returned from his work Saturday afternoon.

Will Seek To Keep Roberts as Counsel for Government in Oil Lease Cases.

SOLONS DEMAND TRIAL OF DOHENY

Belief That Stewart Prosecution Would End Series Blasted by Newest Move.

BY BASIL MANLY.
Washington, November 18.—Senator George W. Norris, of Nebraska, and Senator Gerald P. Nye, of North Dakota, stated today in an interview with the correspondent of The Constitution that they will urge action at the opening of the coming session of congress to provide for the continued service of Owen J. Roberts as special government counsel in the Teapot Dome oil litigation and for vigorous prosecution of all outstanding charges against Albert B. Fall, Edward L. Doheny and Harry F. Sinclair.

The recent acceptance by President Coolidge of the resignation of Roberts as special counsel led to the general assumption in Washington that the government would not prosecute any more oil cases after it completed the trial of Robert W. Stewart, chairman of the Standard Oil Company of Indiana, on the charge of perjury, which is now under way.

Must Continue Cases.
Now come Senators Norris and Nye declaring that the prosecution of the oil cases must be continued until every resource has been exhausted to secure the conviction of the men who were denounced by the supreme court of the United States as guilty of a conspiracy to rob the government of its most valuable natural resources.

The importance of this declaration lies in the fact that these two senators are chairmen of the committees in which such action must originate. Senator Norris is chairman of the Senate Judiciary committee.

BRITAIN PREDICTS S. ANGLO PACT

Journals Declare Hoover Election Will Straighten Tangled Relations Due to Anglo-French Accord.

London, November 18.—(United News.)—The British press predicted today the speedy clarification of difficult relations with the United States over the abandoned Anglo-French naval accord and the possibility of definite developments toward agreement on naval limitation after the inauguration of Herbert Hoover.

Looking forward to the return of Sir Austen Chamberlain, foreign secretary, and American Ambassador Houghton on November 20, a section of the British press sees hope that the ill-feeling generated by the abortive Anglo-French naval accord will be dispelled immediately.

The latest interpretation of President Coolidge's armistice day speech, which was regarded as severe towards Britain's alleged failure to advance reasonable naval limitation proposals, by no means closed the door to the Anglo-French accord, according to Washington correspondents of London newspapers. On the other hand, the correspondents believe, the clarification of the situation will open the way for an approach to the problem from a new angle.

It is believed generally that if Ambassador Houghton had been taken into the confidence of the government during the early stages of the Anglo-French accord negotiations, his report would have been more favorable.

METHODISTS WAIT NEW ASSIGNMENTS TO CLOSE SESSION

North Georgia Conference Ends Today With Reading of Pastoral Appointments for Year.

BY DR. THOMAS M. ELLIOTT.
The North Georgia Methodist conference, in annual session at Wesley Memorial church since last Wednesday, will come to a close with this morning's sitting. Next year the session will be held at the Atlanta First Methodist church, with Bishop W. B. Deane as president.

Rev. T. Z. B. Everett, of Augusta, was scheduled to preach at Trinity church Sunday night, but was unable to fill his engagement on account of illness.

Mr. Everett is now at the Atlanta hospital, where he was sent by Dr. J. D. Mangert for treatment to prevent development of infection into possible blood poisoning.

Some ten days ago Mr. Everett scratched a finger while handling the tongs around the fireplace. No attention had been given the scratch until early Sunday, when the entire arm became inflamed and swollen. Dr. Mangert was consulted, and he advised going to the hospital, that treatment might be given to reduce the inflammation and prevent further development of the trouble.

Was Atlanta Pastor.
Mr. Everett had been asked to preach at Trinity church for the Sunday evening service, but, on account of this unexpected development, was forced to cancel the engagement, to the regret of the congregation that had gathered to hear him.

Mr. Everett was pastor of the Atlanta Stewart Avenue church some years ago. He is now stationed at Augusta Trinity church. He is one of the most popular members of the conference among the younger men, and his friends hope for his quick recovery.

Latest information Sunday night was to the effect that his recovery would not likely prove of any further seriousness, and that he would be all right in a day or so.

WALKER FACES SHOWDOWN ON ROTHSTEIN INQUIRY

New York, November 18.—(United News.)—Developments of the day in the murder of Arnold Rothstein made it seem likely that Mayor Walker will be faced Monday with the unpleasant prospect either of eating his ultimatum to the police or reorganizing the man hunt.

As the sun sank, a red ball of fire behind New Jersey, the "definite progress" demanded by Monday was, if a fact, a police secret.

The detectives began a hunt today for a man wearing Arnold Rothstein's overcoat. If he is seen wearing it, they are trying to drop it off a ferryboat into the East river, he is almost certain to be arrested.

Inspector John D. Coughlin announced discovery that Rothstein's overcoat was missing today, and detectives jotted down in their notebooks a new item. The page now read something like this:

Friend of Silk Hats.
"Subject—Rothstein, age 45, shot in stomach by party or parties unknown, room 349, Park Central hotel, Sunday, November 4, night time.

Subject was short, thick-set man in good health before shooting. Subject was millionaire, gambler, race track follower, real estate operator, money lender, friend of drug addicts, friend of rumrunners, friend of theatrical people, friend of some of the silk hats, too. Friend or ex-friend Jules "Nicky" Arinstein (see \$50,000.00 Vail street bond case). Note—look up if they ever found missing \$4,000,000.00. Had wife, Caroline, separated. Had sweetie, Inez Norton, recent divorced woman.

Note—Former Follies girl and a good-looking if there ever was one.) Subject supposedly called to room 349 by George McManus to discuss settlement of September 8 poker matter. (Note—George has reputation as honest gambler and pleasant fellow. Brother of police lieutenant. Note No. 2. George left overcoat with his name in it in room, maybe in hurry. Note No. 3. George missing. George's car was seen in city to a point 10 or 12 miles out. Real emergency calls which might come in would have to go unattended, while these men who are racers await death are out on a fool's summons.

"Too, if the practice continues, it might bring about a condition where the volume of such fake calls would make expense of the companies so heavy that emergency ambulance service would have to be discontinued. This possibility, I feel sure, should rally every real citizen to the danger, and enlist his aid in stamping out the practice which menaces human lives."

The five ambulances which were sent speeding out Peachtree to the false call belonged to J. Austin Dillon company, Blanchard and Hart, Sam Greenberg company, Avtry & Lowndes and H. M. Patterson & Son.

GEORGIA AVIATOR DIES IN FLORIDA AFTER CRACK-UP

Tampa, Fla., November 18.—(AP)—Calvin D. Colquhitt, 30, of Barrenville, Ga., died today at a hospital here today of a fractured skull and internal injuries received yesterday in an airplane accident at the municipal airport.

Colquhitt's plane in making a landing taxied over on its side and Colquhitt was apparently thrown against the side of the cockpit. A passenger riding with him was uninjured.

WIFE OF PRESIDENT TO CHRISTEN PLANE

First of Pan-American Ships
to West Indies Is
Object.

Washington, November 18.—(AP)—Mrs. Calvin Coolidge will christen next Wednesday the first of the Pan-American Airways passenger planes, which will operate on a daily schedule between Miami and the West Indies.

Announcing the participation of Mrs. Coolidge in the ceremony, the Airways company said she had accepted their invitation to christen the plane with a view to the value of Pan-American air communication in fostering closer relations between the United States and nations to the south.

The ceremony is to take place at Bolling field in the presence of Latin-American diplomats, representatives of the state department, the department of commerce and the postoffice, and of the Pan-American union.

The plane to be christened is a trimotor Fokker, with 12-passenger capacity and carrying in addition to two pilots a radio operator and a steward. Its daily flying schedule is to begin January 8. The Airways company, which already holds air mail contracts to the West Indies and Central America, will on that date place passenger ships in operation between Miami and Havana and West Indian capitals with San Juan as southern terminal. It will later operate daily passenger lines to Panama and to Nassau.

Cooperating with railway companies, it is the plan of the Airways company to operate direct rail and air schedules from the principal cities of the east and central United States. Through tickets are to be sold by rail-

road companies at the point of origin. It is eventually planned to link the Panama line with one the company now operates in Peru. Eight ships are to be placed in service early in the year. These are now being built by the Fokker company. A total of 20 are expected to be placed in operation by the end of 1929.

HOOVER DEPARTS ON SOUTHERN TOUR

Continued from First Page.

ing the party tomorrow upon its arrival there. The definite itinerary for the trip will not be completed until after Mr. Hoover has conferred aboard the ship with a Mr. Fletcher.

Under the present plans, however, the first stop will be made at Corinto where the president-elect will make his first official explanation of the purpose of his visit to the Latin-American republics. Leaving that port, he will journey down the coast to Balboa, where a brief stop will be made for him to inspect the Panama canal, and thence he will move down to the southern continent to visit most of the countries there.

No definite decision has yet been reached regarding the acceptance of invitations to visit Ecuador and Bolivia.

On the east coast of South America on the home-coming trip Mr. Hoover's party will board the battleship Utah and be brought to Havana, journeying from Cuba either to Key West or Miami, Fla., and probably remaining in that state until immediately before the date of his inauguration on March 4.

To Select Cabinet.
The journey itself, it has been pointed out, will, in addition to the value of the association of the president-elect with the peoples of the South American republics, give him ample opportunity to give his thought to the problem ahead of him and lay his plans for the selection of a cabinet for his administration. Then, after his return to this country, the appointments could be made after a series of conferences with political advisers.

There has been little thought thus far given to cabinet selections and the problem ahead of him and lay his plans for the selection of a cabinet for his administration. Then, after his return to this country, the appointments could be made after a series of conferences with political advisers.

There has been little thought thus far given to cabinet selections and the problem ahead of him and lay his plans for the selection of a cabinet for his administration. Then, after his return to this country, the appointments could be made after a series of conferences with political advisers.

In that respect, except for the last minute flurry of preparations for the journey, today varied but little from last Sunday when the president-elect participated in an Armistice day service at the university chapel. Many of the symbols that last Sunday drew the attention of the worshippers to the fact that the day was commemorative of that of 10 years ago when the earth again was touched by peace had been removed and the service was wholly different in character.

Today's was the simple service of a college chaplain talking to the undergraduates of a university, explaining to them why they should not permit the questions that arise in their minds after a study of science interfere with their faith. Fundamentalism, he said, is a blight upon civilization, going ahead, he explained that man's conception of God continually was changing and had been through the various periods of history. He concluded with

EFFRON'S

the declaration that faith would answer the various doubts that arose.

FIRST DREADNAUGHT TO HAVE VANITY.

San Pedro, Calif., November 18.—(AP)—The dreadnaught U. S. S. Maryland, equipped as a man-of-war never has been prepared before, stood ready tonight to nose out to sea tomorrow with President-elect Herbert Hoover and his South America-bound party, almost before the echo of the salute from shore batteries and battle craft in Los Angeles harbor will have died away.

An honor escort of six destroyers lay beside the state Maryland. At the harbor elaborate preparations have been made to avoid delay. There will be no speechmaking, no handshaking, or function of any sort. When the train pulls in, an honor guard of 300 sailors, reinforced by a staff of police and secret service operatives, will guard the Hoover party. As soon as the special stops the party will be taken to the admiral's barge of the flagship California, which will speed away to the gray battleship anchored two miles out in the harbor. The distance of anchorage was made necessary because of the heavy draft of the Maryland.

A special appeal has been set aside for school children to see the president-elect, and the public will also be given an opportunity to catch a glimpse of him as he hurries to the vessel prepared for the good-will tour. As the admiral's barge draws to the Maryland's gangplank the first of a 21-gun salute will roar from the dreadnaught's guns. As the echoes die away it will be answered by other battle craft and the shore batteries.

The Maryland will get under way to the sound of a great cannonade of honor, for it is hoped that the dreadnaught will nose out of the harbor and turn south within a quarter of an hour after the party arrives on board. The president-elect and his wife will be installed in the admiral's suite, which consists of a living room, reception room, bathroom and stateroom. A vanity dresser, the first ever installed on an American battleship, is included in the special equipment which is designed to make comfort complete.

J. W. HINCHCLIFFE, WELL-KNOWN HOTEL MAN, DIES SUNDAY

J. Walter Hinchcliffe, veteran employee at the Piedmont hotel, president of the Excelsior Taxicab company and proprietor of the Auto Wash, died Sunday night at his residence, 723 Ponce de Leon court, after a brief illness.

Mr. Hinchcliffe was a native of England and came to this country at the age of 18. Going to the Canadian northwest he enlisted in and served with the Royal Northwest Mounted Police for five years.

Coming to Atlanta 25 years ago he soon after began his association with the Piedmont and in later years expanded his interests to include the taxicab business and the auto washing plant.

He was prominent in local fraternal circles and was a member of the Elks' lodge, No. 78, a Mason and a Knight Templar. He was also a member of St. Luke's Episcopal church.

Mr. Hinchcliffe is survived by his widow; a sister, Mrs. F. R. Fayerweather, of Boston, and a brother, F. A. Hinchcliffe, also of Boston. Funeral arrangements will be announced later by Awtry & Lowndes.

St. Luke's Choir To Sing Famous Oratorio Tuesday

"The Holy City," probably the best beloved and most popular oratorio ever written, will be sung by the choir and soloists of St. Luke's Episcopal church on Tuesday night at 8 o'clock. This presentation of the famous sacred composition is given for the general public, the regular congregation having enjoyed the oratorio on Sunday night.

It was, in fact, largely because of the magnificent rendition of the oratorio on Sunday night that it was decided to repeat for the benefit of other music lovers of the city on Tuesday.

The St. Luke's choir, with eight splendid soloists, under the direction of Hugh Hodgson, organist and master of the chorists, gave the thrilling work by Gault with an understanding and vigor rarely heard. Ever since it was written, in 1882, for the music festival at Birmingham, England, "The Holy City" has been one of the most effective of all sacred musical compositions, but it is doubtful if it has ever been given more splendidly than this Atlanta choral organization.

Among the soloists who sang the numerous solo and duet numbers on Sunday night, were Charles Wynne, Mrs. J. C. Brown, H. M. Tyler, Mrs. L. S. Harper, Miss Frances Woodberry, Mrs. Hugh Hodgson, and Harry Bates. Mrs. Bates was called from the city Sunday night and his place will be taken on Tuesday by Walter Herbert.

The oratorio is of a deeply spiritual and reflective nature. All the words in the score are scriptural with the exception of two of the hymns, several verses of the Te Deum and a verse written by Milton. The dramatic portions are taken from the vision of St. John, as told in the Book of Revelations.

Many famous airs are found in the work, including "My Soul Is Aching For God," "Eye Hath Not Seen," "For Thee, O Dear, Dear Country," "Let the Heavens Rejoice," "Come Ye Blessed," "They Shall Hunger No More," "List the Cherubic Host," "I Heard a Sound of Voices."

It is a rare opportunity presented Atlanta music lovers on Tuesday night, and it is probable that the church will be filled to capacity to hear Mr. Hodgson, his choir and soloists, give this mighty composition.

BOY IS WOUNDED BY ACCIDENT SHOT WHILE SCUFFLING

Shot accidentally Sunday night while he and a grown brother were scuffling over a pistol belonging to the latter, Carl Arnold, 11-year-old son of Mrs. J. E. Arnold, of 928 Bankhead avenue, sustained a painful wound in the left leg just above the knee.

Relatives told Call Officers Harris and Glover, investigating, that the boy with his 22-year-old brother, M. B. Arnold, had been playing with the pistol when one attempted to wrest it from the other and it was accidentally discharged. An ambulance from Ed Bond and Condon company rushed the youth to the hospital.

Warm Sunday To Be Followed By Wet Monday

With Sunday cloudy and misting at times, while the mercury was unusually high for November, today will bring rain to Atlanta with a slight

decrease in temperatures, it was predicted by the national weather bureau in Washington, D. C.

Temperatures over the southland Sunday were considerably higher than a November high mark for several years. Macon, with a high mark of 41 degrees topped all southern cities. Atlanta's highest mark was only 74.

FUNERAL RITES TODAY FOR JESSE C. COBB

Funeral services for Jesse C. Cobb, 738 Cherokee street, well-known conductor on the Atlanta and West Point railway for many years, and son of the late Judge Andrew Cobb, of the supreme court, one of the state's most famous jurists who died Saturday at his home, will be conducted at 2:30 o'clock this afternoon at St. Paul's Methodist church.

Rev. W. C. Crowley and Rev. B. F. Frazer will officiate and interment will be in West View cemetery.

Mr. Cobb was well-known throughout the city due to his affiliation with the Masonic order and its various branches. He was a member of the Shrine, of the Scottish Rite Masons and of Battle Hill lodge No. 535, F. & A. M. He also was a member of Division 180, Order of Railway Conductors and of St. Paul's Methodist church.

He leaves his wife, two sisters, Mrs. Albert Davidson, and Miss Sarah Cobb, of Athens, and a brother, Howell Cobb, of Albany.

SNOW ADDS TO PERIL OF FLOOD REFUGEES

Continued from First Page.

City Saturday. Their car was later seen floating on the crest of the waters but no bodies were recovered. At Augusta, Kans., search was being made for Charles Waterman who plunged into the water when flames drove him from the Santa Fe pumping house Saturday.

Rumors of several deaths from drowning at Winfield, Kas., could not be verified as the town was divided into sections by flood waters. From other parts of Kansas rumors of deaths were heard.

Winfield, today was in the grip of the worst flood in the city's history, with part of the city under water. A Missouri Pacific railroad foreman reported to have been swept to his death and a woman was said to have perished when water invaded her home. Communication between various parts of the city even was not possible. Property loss there was large.

The Verdigris river at Needasha, Kan., at mid-afternoon had equaled its record of 28 feet and was still rising. Railroad tracks four miles east of the city were submerged, and partly washed out.

Okhama began to feel the effects of the flood as the swirling waters churned their way to the sea. One person was known to have been drowned and two others were missing at Hartshorne, Okla., after Bushy creek west of the town, went roaring out of its banks today.

NEGRO STEALS PURSE FROM REAR ROOM

A purse containing \$8 in cash was stolen from the home of Mrs. N. D. Smith, of 141 North avenue, early Sunday night by a young negro who entered a bedroom at the rear of the house while Mrs. Smith was in the front of the home, according to reports made to police.

Mrs. Smith told officers that she was in a front room with her father and hearing a noise in the bedroom went back just in time to see the thief jump through the window, purse in hand.

SENATORS TO PRESS U. S. OIL CASES

Continued from First Page.

Judiciary committee to which would be referred the special legislation necessary to enable Mr. Roberts to continue to act as special counsel for the government. Senator Nye is chairman of the public lands committee which conducted the Teapot Dome investigation and which was responsible for the original resolution providing for the appointment of special counsel to prosecute the cases against Fall, Doherty and Sinclair. They are, therefore, in a position to bring the matter before the senate and secure a roll call upon whether the remaining indictments should be prosecuted or dismissed.

In his letter of resignation, Mr. Roberts gave as his reason for withdrawing the federal statute prohibiting himself and his law firm from prosecuting any claims against the government as long as he continued to be retained as government counsel. He clearly implied that if this disability was removed he would be willing to continue.

Plan of Norris.
Senator Norris proposes to introduce a bill specifically exempting Mr. Roberts and Pomeroy from the operation of this statute as long as they continue to act as special counsel for the government in oil cases. In discussing his intention to take this step, he said:

"I believe that the government should continue to have the benefit of the services of Mr. Roberts until every civil and criminal case growing out of the Teapot Dome conspiracy has been disposed of. He is recognized as an attorney of great ability and by his long connection with this litigation has secured a knowledge of the facts which it would be difficult for any other lawyer to acquire within a short time. He has also had the experience of conducting the criminal cases based on the conspiracy charges and knows the strategy that will probably be employed by the counsel for the defense in any other case. I have no doubt that houses of congress will speedily enact the legislation necessary to permit Mr. Pomeroy and Mr. Roberts to continue to represent the government in these cases."

Senator Nye is planning to introduce a resolution declaring it to be the sense of the senate that the government should continue the vigorous prosecution of all outstanding indictments growing out of the naval oil lease conspiracy. These are:

1. The case against Albert B. Fall.

charging criminal conspiracy with Harry F. Sinclair to defraud the United States in connection with the lease of the Teapot Dome oil reserve. Fall was to have been tried on this charge jointly with Sinclair last spring but was given a separate trial on the certificate of his physicians that he was unable to stand trial at that time.

2. The bribery charge against Albert B. Fall and Edward L. Doherty arising out of the transfer by Doherty of \$100,000 in cash in the "little black bag" soon after Doherty had secured from Fall a valuable lease in the Elk Hills oil reserve. This indictment rests upon substantially the same facts involved in the trial of Fall and Doherty on charges of criminal conspiracy of which they were acquitted by a Washington jury.

3. The indictments against Harry M. Blackmer charging falsification of income tax returns and failure to report as income the liberty bonds which he secured through the Continental Trading company transfer.

Senator Nye introduced a resolution covering substantially the same ground during the closing days of the last session, but it was not acted upon. In announcing his intention to press this

matter again at the coming session of congress, he declared:

Nye's Statement.
"I do not believe the American people will willingly see these oil cases dismissed or dropped until every effort has been made to secure the conviction of those who have been guilty of the most outrageous conspiracy to defraud the government that has occurred in all its history. The supreme court of the United States after reviewing all the evidence denounced these men in the strongest language that has been used in any of the decisions of that court. I do not care how many Washington juries have voted acquittal in the criminal cases that have already been brought to trial, particularly when I remember the scandalous charges of attempted jury fixing that accompanied certain of those trials."

"It is true that the government has recovered the stolen oil lands but I am sure that a majority of the senate will not be satisfied until every effort has been made to send those who were guilty of these crimes to the penitentiary. The fact that these rich and powerful men have thus far been able to defeat the ends of justice by the

clever stratagems of their highly-paid attorneys is all the more reason for the government to continue vigorous prosecution of the outstanding indictments. It may be impossible to convict a man with a hundred million dollars, as some cynic has said, but surely the government cannot make such an admission without satisfying itself in the eyes of the entire American people."

PEOPLE ARE CRITICAL OF A PIMPLY FACE!

No longer do people pity a person with pimples or other displeasing skin blemishes. In fact they are apt to criticize and avoid such a person, because pimples are usually a sign of carelessness and neglect.

If you want to be admired for a clear, healthy complexion ask for Black and White Ointment and use it according to directions. It is pleasant to use, highly beneficial and scientifically safe.

For best results use Black and White Skin Soap with Black and White Ointment. All dealers sell them at small cost. (adv.)

'Team Work' Styled Keynote Of Community Chest Plan

"Team work" is the Community Chest idea, according to a description of Atlanta's organized social service work made last night by Miss Mary Dickinson, executive of the Tuberculosis association.

"Through the operation of the chest," said Miss Dickinson, "we have 38 societies, each in its special field and with its special function, which are working to help each other. We have facilities, thought, and energies multiplied 38-fold."

"There is not an agency in the chest organization, whether it be for protection of little children, care and shelter of aged women, or character development among boys and girls, that does not help every other agency. That expresses the value of expertly organized charity."

The Tuberculosis association, one of the oldest and most effective of social service organizations in Atlanta, provides free clinical treatment and visitations to sufferers from the great

white plague. It has been effective in helping bring about the reduction of Atlanta's death rate from tuberculosis by 50 per cent in the last 20 years.

"Our association has been established for years, and its service is recognized as a community necessity," said Miss Dickinson. "We were supported through subscriptions and by the sale of seals at Christmas time. Yet we throw our resources into the Community Chest organization because we saw that our work would be aided by that of every other agency."

"The Family Welfare society, for instance, building up the personnel of the stricken family, raising its standards of living, increasing its independence and self respect, helps the war on tuberculosis. The Community Employment service, finding jobs for the unemployed, aiding men and women to fight the economic battle the better, helps reduce the liability to disease, particularly tuberculosis. And

so we would not, if we could, go back to the old plan."

HART GENTRY, 25, GREENE COUNTYAN, PASSES TO REST

Greensboro, Ga., November 18.—The death of Hart Gentry occurred at his home at Vezey, Ga., near Greensboro, Saturday afternoon after an illness of three weeks. Mr. Gentry was only 25 years old and was married last Easter to Miss Lorraine Hunter, one of Greensboro's most attractive young girls.

Besides his widow he is survived by his parents, Mr. and Mrs. R. H. Gentry, of Vezey, and three sisters. The funeral and interment will take place at Vezey Monday afternoon.

An End of Glory.

Munich, November 18.—(AP)—Klosterneuburg castle, near Salzburg, once the property of the Hapsburg dynasty of Austria, is to become a canned meat factory, and pigs will be fattened in apartments once sacred to royalty. The palace was sold by the Austrian government for \$80,000.

ELECTION CONCEDED FRANKLIN ROOSEVELT

G. O. P. Opponent Admits
Defeat, Press Reports.

Warm Springs, Ga., November 18.—(AP)—Informed tonight that his republican opponent, Albert Ottinger, had conceded his election as governor of New York, Franklin D. Roosevelt said: "In the absence of any official word from Mr. Ottinger, I am very grateful to him for conceding my election as reported by the newspapers."

He would add nothing further to this statement. Word of Mr. Ottinger's concession was taken to Mr. Roosevelt by newspapermen at the close of a day in which his cottage here, where he is

undergoing treatment, was the scene of a steady stream of visitors bringing congratulations on his election and inquiring after his health.

He indicated that he might have a more extended statement to make after he had received formal notification of the New York attorney general's concession.

At the close of his first week here on his present visit Mr. Roosevelt said his health was fine and that he "never felt better in his life."

KLE CLUB DANCE FOR CHARITIES FUND

The first of a series of dances to be given by the Kle club will be held Wednesday night at the Henry Grady hotel, with dancing from 9 o'clock until midnight.

The affairs are sponsored by the club for the benefit of its Christmas charity funds. It is the club's practice to raise such a fund each year and through it to distribute food, clothing and other necessities to destitute families during the holiday season.

VALDOSTA TRADE BODY WILL ELECT PRESIDENT TODAY

Valdosta, Ga., November 18.—The 14 members elected as directors of the chamber of commerce will meet in private session Monday evening and elect one of the number as president of the organization for the ensuing year, although the newly elected president will not be made known until the night of the membership annual dinner, November 23.

Bond Election.

Valdosta, Ga., November 18.—An election will be held in the Alapaha district of Berrien county on December 16 to determine the issue of \$40,000 worth of bonds for the erection of a new consolidated school building. Reports received from that section are to the effect that patrons of the school are enthusiastic over the prospect for the success of the campaign. The school building facilities in that section at present are decidedly inadequate for the needs of the community.

Cash Is the Great Saver

"When you pay for it,
It is yours"—
to have or to give.

The Christmas season--it is universally conceded--is the spending time. It is not necessarily an extravagant season--tho often it proves to be.

It is the time particularly to remember that *cash is the great saver*.

The gift "bought and paid for" is presented all the more happily, because one knows that he has not "overbought" thru the pressure of the season's demands.

Also because he has not overpaid. At Philibosian's you will be able to select the sort of gift that stays in the family--represents you in the hearts of your friends.

Such gifts do not wear out--neither do they wear out their welcome.

Here is a brief list of small things giveable at small prices:

End Tables, \$5.00 to \$12.50.

Coffee Tables, \$12.50.

Octagon Tables \$14.50

Pedestal Tables to

Modern Antique Wall \$24.50

Tables

Mirrors, \$5.00 to \$24.50.

Smoking Stands, \$1.21 to \$5.00.

WHY GEORGIA LOST OUT.

The New York Cotton Exchange has at last recognized the soundness of the contention that has been made for years by The Constitution, the Atlanta Commercial Exchange, the Savannah Board of Trade, and others, that southern deliveries of cotton should be an established feature of trading on that exchange. It has approved the plan, by amendments to its rules and by-laws, making deliveries permissible at seller's option at New York, Norfolk, Charleston, Galveston, Houston or New Orleans.

When delivery is made elsewhere than New York, 35 points will be deducted from the invoice price by the deliverer. In addition to naming the southern delivery points, the amendment provides that shipping cotton to delivery points at an obvious loss for the purpose of artificially influencing prices shall be considered detrimental to the best interests of the exchange.

The step is progressive and constructive, and will eliminate enormous expenses heretofore imposed upon cotton producers and sellers by New York being the only point of delivery.

It will be observed that no Georgia delivery point was named.

This was not because the New York Cotton Exchange discriminated against Georgia. On the contrary it wanted to name either Atlanta or Savannah, and waited for two years, after it had determined to amend its by-laws authorizing southern deliveries, for Georgia to revise its antiquated and wholly unwise exchange law as to comport to such a recognition.

We pleaded with the state legislature to take this revision. It failed to do so.

Now, for at least several years, there is little possibility, if any, of a Georgia delivery point being included.

However, it is gratifying, in the interest of the producers and sellers of the entire belt, that such a forward-looking step has been taken in their interest and welfare, and in the interest of southern ports.

PLACES WILSON FIRST.

Brigadier General Henry J. Reilly, O. R. C., was at one time one of the severest critics of the late President Woodrow Wilson. In an article in the current issue of the American magazine, however, he gives him first rank among all the war presidents of the United States. President Wilson was the target of criticism before and after the war, and he would perhaps be living today but for the barrage of criticisms that followed his great world peace program.

General Reilly places the war president's ability to subordinate politics to the needs of war as the outstanding reason for his conclusions regarding the last democratic president. He points out that the three full generals of the A. E. F., Generals Pershing, March and Bliss, all of them republicans, agreed that Wilson was their sponsor and their constant source of encouragement during the war. Pershing, noted for the brevity of his speech and the aptness of his meaning, is said to have remarked, in speaking of Wilson, simply "he backed me up."

"None of our war presidents," says General Reilly, "and no European statesman of the great war showed a clearer grasp of the principles necessary to bring victory, nor more determination in following them, than did President Wilson once we entered the fight."

Speaking of the testimony of Wilson's generals the writer says that this testimony proclaims Wilson "free from a fault which is common to most statesmen—a fault which has caused more defeats in war than has bad generalship in battle."

"This fault," General Reilly continues, "is the failure to understand

that the methods which make for a successful political career in peace are exactly the opposite of the methods which bring victory in war."

As the four decisions of Wilson which offer his greatest contributions as a wartime leader the writer lists the following: His selection of capable men for commanding military positions and his reliance on them; his proposal of and sponsorship through congress of the selective service law; his endorsement of General Pershing's plan to put a minimum of 1,000,000 American troops in France before striking the first blow; and finally his decision to have the American soldiers in France fight as a unified force.

CHEST WORKERS IN FIELD.

More than 300 workers for the Community Chest take the field today. The drive has been systematically organized. It will be intensively conducted.

Every business firm and institution in Atlanta who can, every citizen who can, should contribute to this movement.

The meeting of a city's charity and welfare obligations through thorough organization in the practical and the sound way. It has been so demonstrated beyond controversy.

The Atlanta Chest has been completely reorganized. Expenses of administration have been reduced to a minimum, a greater cooperation and coordination between Chest and agencies established, and efficiency broadened. The president, H. M. Atkinson, is one of the outstanding business executives of the nation, and his administration of the Chest will assure for it a fullness of service, with economy and merit.

It is Atlanta's one great annual charity appeal, and impresses a citizen duty that we cannot escape, nor do we want to escape.

UNIFORM TRAFFIC CODE.

According to the federal bureau of standards, the uniform traffic code worked out by the state traffic commission has recently become effective in the state of New Jersey. This is said to be the first state in which every regulation, signal and marker pertaining to traffic, in city or country, is uniform, and engineers and traffic authorities throughout the country are reported to be watching the experiment with interest.

Traffic signals in New Jersey may no longer be located in the center of the street, but must be placed at the nearest points conveying the message of direction. "Jay walking" is made a misdemeanor. Coasting with clutch out or gears in neutral is prohibited. Stop signs are yellow, with red lettering, and slow and caution signs yellow, with black lettering. Direction, information, restriction, one-way and detour signs are white, with black lettering. Automobile trucks outside of business or residential districts are prohibited from following each other at intervals of less than 100 feet. Speed limits are liberalized by the new code, and the smooth and safe flow of traffic will depend upon the working of the new regulations.

Although the new code differs in a few respects from the model municipal traffic ordinance issued August 1, 1928, by the National Conference on Street and Highway Safety, it is the hope of the national conference that other legislative bodies will follow the example of the New Jersey legislature in adopting without change an ordinance prepared by experts, thus promoting uniformity in traffic regulations throughout the country.

WHAT OF THE GOLDENROD?

What should be the national flower? Advice received in Atlanta by nature lovers state that the American Nature association, which has been conducting a nation-wide vote to determine what particular blossom Americans would like to have for their national flower, has reported that a number of persons favor the goldenrod. In connection with this announcement it is also brought out that there have been several who have arisen to protest against this same flower.

Hay fever sufferers, it is pointed out, contend that the goldenrod contributed to the suffering they must endure and object to any movement to increase the present number. However, the nature association says that such a protest is not warranted by the facts; that the goldenrod does not cause or aggravate hay fever. The ragweed is the real cause of all the trouble and the goldenrod has been falsely accused, it seems.

Now that the goldenrod has been given a clean bill of health, it is probable that Atlantans will vote for the flower.

Farmers would be better satisfied if grain elevators would raise the prices.

As usual, the fellow who didn't vote, will go on telling us how the government ought to be run.

We'll wager that Santa Claus wins without a ballot.

Having a sweeping majority we trust they will come clean.

THE WORLD'S WINDOW

BY PIERRE VAN PAASSEN

Royalist Excitement.

The royalists of France, undoubtedly the smallest political group in the country, can stir up more trouble than many a big political organization, like the communists for instance, who polled a million and a half votes at the last election. At Paris in the south some of the king's henchmen smashed a statue of Emil Combes, the anti-clerical premier of two decades ago. In the rumour one of their men was killed by a gendarme. The next day Action Française in Paris came out draped in black borders and the headlines: "Herriot the Assassin!"

M. Herriot had unveiled the statue, but had already departed when the statue was smashed. In the town council of Lyon, where M. Herriot is mayor, a group of king's henchmen disrupted the proceedings shouting "A bas assassin!" when M. Herriot started to speak. This sort of agitation is very contagious in a Latin country where the spirits of men are in a constant ferment. A banal incident assumes the significance of an immensely important political event. Civil wars have started over less. The royalists apparently believe that it is good fishing in murky waters.

At Drumont Grave.

Strolling amid the masses of tombstones on the old cemetery of Pere Lachaise, where hundreds of historic names evoke souvenirs of the revolution, the commune and other stirring events, we observed some workmen engaged in cleaning away weeds from a small round stone. When they had brushed away some of the accumulated dirt there appeared the name of Edouard Drumont, who died in 1917. Drumont was a stormy figure. The days of the Dreyfus affair, perhaps the greatest Jew-baiter of modern times. So infinite was his hatred of the Jews that the theory was advanced and found credible that he was a converted Jew, the same has been said of Torquemada, the chief officer of the Spanish Inquisition, who counted thousands of Jews among his tens of thousands of victims. In every day life Drumont was a gentle and easy-going man, a journalist who contributed daily articles to half a dozen papers, something that accounts perhaps for his early death. Daudet knew him and said of him: "He was the most lovable of men, but how he could hate!"

Behaim.

The Observer reports a new movement in Turkey called Behaim, which is said to have originated in India and to be spreading rapidly westward. Behaim is neither a religion nor a secret society, though its tenets hold some similarity to those of the Free Masons. It extols virtue and valor as the highest of human qualities, and requires neither ceremonies, priests nor preachers. The principles of Behaim are as follows: Humanity is a tree and human beings are the leaves and branches. Men and women (i. e. husbands and wives) are equal. Quarreling, anger, hatred, revenge and superstition are prohibited. Behaimists must submit themselves to the laws of the countries to which they belong. Falsehood, cheating and divorce are deadly sins. Should a man and woman desire to part they must live under the same roof for nine months and if at the end of that period no reconciliation has taken place they may resort to legal separation. Polygamy and infidelity are the enemies of all fanaticism. They are enemies of Christ, Mohammed and Buddha as prophets of one Creator. They insist on a lower and middle school education for all.

Timely Views of Noted Americans

CHANGES ADVOCATED IN DEPARTMENT OF STATE.

BY STEPHEN PORTER.

(Stephen Porter was born near Salem, Mass. May 13, 1869. He attended high school at Allegheny, Pa., studied medicine two years, and read law with his brother. He was admitted to the bar in 1893 and since then has practiced law in Pittsburg, Pa. He was elected to the house of representatives in 1911 and has served continuously since that time. He is chairman of the house committee on foreign relations and a republican. His home is in Pittsburg, Pa.)

The growth of population, industry, and trade in the United States has increased the number of Americans interested in foreign trade, together with improved means of international transportation and communication have thrown large additional duties and responsibilities on the secretary of state, his assistants and their subordinates, constituting the home service. The assistants to the secretary and the home service instructions dealing with the foreign policy of the country, to be received and carried on by the foreign-service officers abroad.

The compensation of these home-service officers is grossly inadequate in comparison with compensation paid to officers of the foreign service who receive and carry out instructions from the department, as witnesses the recent preparation and delivery of the international peace documents exchanged between the United States and France in the past year.

It is not consistent with good administrative practice to pay smaller salaries to officials of the department of state who prepare and issue instructions to officials of the foreign service who receive the instructions in view of the greatly increased duties at the seat of government, there should be one additional undersecretary of state and two additional assistant secretaries of state.

It has been the custom of presidents to choose the heads of the executive department and their assistants from citizens who have distinguished themselves in civil life, rather than from persons holding office in those departments, thus avoiding the creation of an officialdom. To prevent dissatisfaction and promote confidence, appointments and other personnel changes in the foreign and home services should be entirely removed from control of officials who can obtain personal advancement through such control.

When one thinks of the toll of the sea the mind immediately grasps the debt our nation owes to its naval heroes.

Among the nation's most brilliant stars that have long since disappeared, was that of John Paul Jones, of Revolutionary days, whose retort "I have not yet begun to fight" was a dramatic reply to the enemy captain who demanded whether his obviously crippled "Bon Homme Richard" had not "struck her colors."

How well do we recall the story of James Lawrence, whose dying words were: "Don't Give Up the Ship!" inspired the young Captain Perry to wrest victory in the face of almost certain defeat on Lake Erie, Perry's dispatch, "We have met the enemy and they are ours," instantly heartened the dispirited land forces in the war of 1812 in which the navy figured so creditably.

Others never to be forgotten are Captain Isaac Hull, commander of the victorious "Constitution," or "Old Ironsides," Stephen Decatur at the harbor of Tripoli, Macdonough on Lake Champlain, Farragut at New Orleans, and Dewey at Manila, and Sampson and Schley at Santiago, all of whom protected our native shores and won respect for our flag abroad.

And what of the countless other officers and men on all these ships, through all the generations, who stood loyally at their posts in the thick of the fight, facing death on every side, without whom victory would not have been possible?

They also served, although the measure is sadly unrecorded. Most of us "Remember the Maine," as we were exhorted to do after her mysterious explosion in February, 1898, as she lay in Havana Harbor on "good will visit."

Indignation over the death of two of her officers and 268 of her crew in actuality precipitated the war with Spain.

We cannot, we must not, forget the navy, and the spirit of the courageous men who wear the uniform of America, in the great right arm of national defense!

I sailed for Europe in 1918 on a transport. The convoy was fired on twice off the Azores, by enemy submarines.

I saw our navy men in action, the "destroyers" chasing the submerged craft as wild Indians in the old pioneer days of the west "bore down" upon a settlers' train of "prairie schooners."

A-I-I what a chase! How my heart beat with pride for the courage, the will, the fervor, the fearlessness, of the men of our navy. I returned to America in November, after the armistice, of an American cruiser.

The lights were on for the first time in about two years. The captain was making a mad dash for New York. We had a long list of serious casualties aboard.

The second night out of the French harbor of Brest we ran into the teeth of the severest storm in the Atlantic in a generation.

The great ship, 800 feet in length, cracked and snapped as though every seam would part.

The storm came suddenly. Even the barometer did not forecast its severity.

I was, with some war officers, in the salon, and could not get to my state-rooms.

Just in Passing

BY JAMES A. HOLLIDAY.

"Twilight and evening bell,
And after that the dark!"

By Alfred Lord Tennyson.

Only those familiar with mid-ocean travel can appreciate how quickly the shadows fall after the "evening bell."

And then, the shroud of black! One stands against the forward deck rail and scans the wilderness in every direction for the faint glimmer of another ship in the zone.

But alas! only seldom can a light be seen.

When one may spring up from the black waters like a jack-o'-lantern there is a feeling of exhilarating relief.

It is like the arrival of a companion when one is alone at night in a great, cold, desolate house, with a feeling of intermingling fear and loneliness.

In the southern waters, the moon—glorious, as nowhere else in the world—is one's best friend at sea at night.

As the ship approaches the equator, after passing parallel 15, with the beautiful "southern cross" preaching a sermon of the Master's crucifixion from a cloudless horizon; and a great shaft of silver shooting across the "caps" as far as the eye can see.

Sleep is almost impossible! One feels the imperial force, and the limitless vastness of nature; and however far adrift from righteousness may have been the life, there is a consciousness of God, and of God's very presence.

I know from experience. Many a night in these waters I have "slept" on deck, with my eyes fastened upon the incomparable starlit canopy, without closing them for sleep, until a rim of gray on the water's surface, far over to the east, told the story of dawn.

Tracking the northern waves across the Atlantic I have looked from my cabin window many a morning, the ship tossing fore and aft, and rocking from port to starboard, the surging billows rolling as if mountains high, the sky overcast, with indications of "weather" ahead, and I would say to myself, "O, how forbidding and foreboding!"

And yet—"On stormy nights, when wild south winds rave,"

How proud a thing to fight with wind and wave!"

—Arthur Hugh Clough.

The tragedy of the Vestris impresses the stern fact that the great company of unfortunes who have found a common grave in the Atlantic keeps steadily increasing.

Another five score and ten human lives buried in the cemetery of the sea! Whatever may have caused the disaster, with its sorrowful results, and its unspoken suffering and agony and horror—

However grossly and outrageously may have been violated in this tragedy those sacred traditions that have made ocean travel fascinating by reason of the high achievements of valor and fortitude that are the precious possessions of maritime history—

Carey remained upon the bridge of his sinking ship until its final plunge, and then buried himself in its bosom on the ocean's pitiless bottom.

He may have erred in judgment. He may have been unable to manage a panic-stricken stoker crew. He may have trusted too much to subordinates—

But his final act exemplified the finest tradition of his kind, and, whatever may be said of him as to his failure to save a precious cargo of human freight, when the grim waves engulfed him, without a life belt on, without an effort to save himself, with the parting shout, "Good-bye, all," he did not fail to be a Man.

"He has done with the sea's sorrow and The world's way and the wind's grief."

This latest tragedy has brought to my mind afresh some of the great catastrophes of the sea.

Since the early days of the Christian era, when the dauntless Nordic sailors traveled the seven seas, and as early as the seventh century—a legendary but practically a historical fact—made fast their little galleys to the rocks of our own New England coast, the toll of the sea has been heavy, and at times appalling.

But along with the tragedies have been the romances!

It is difficult to appreciate the hardships, the daring, the intrepid courage the early pioneers endured to broaden the earth's borders.

From recorded history we know that as early as 1661 the commerce of Massachusetts was so harassed by the Barbary Corsairs that honest seamen begged from door to door in Boston to collect ransom for their captive shipmates.

New Englanders turned to the sea for a livelihood and paid for it dearly. These stern Yankee fishermen made such ports as Gloucester contribute to the nation's food supply, as often lost as won in their fierce encounters with wind and tempestuous waves navigating along uncharted, unlighted coasts, among reefs and islands.

In those days there was the constant menace from merciless pirates and privateers who haunted the trade routes from the southern coast "where the dreaded Blackbeard raked the horizon with his brass spy-glass for tempting prizes and hapless crews, to the Spanish Main, where roved the bloodthirsty Captain Roberts."

Blackbeard "worked" from the Georgia coast, and one of the Georgia sea islands, owned by the government, was supposed to have been his land cache, and it now carries his name.

To the "anxious seas," which may still be found on Atlantic headlands, mothers and wives and sweethearts, dragged weary steps through the long months of waiting to see the horizon for sails that never have been seen.

When one thinks of the toll of the sea the mind immediately grasps the debt our nation owes to its naval heroes.

Among the nation's most brilliant stars that have long since disappeared, was that of John Paul Jones, of Revolutionary days, whose retort "I have not yet begun to fight" was a dramatic reply to the enemy captain who demanded whether his obviously crippled "Bon Homme Richard" had not "struck her colors."

How well do we recall the story of James Lawrence, whose dying words were: "Don't Give Up the Ship!" inspired the young Captain Perry to wrest victory in the face of almost certain defeat on Lake Erie, Perry's dispatch, "We have met the enemy and they are ours," instantly heartened the dispirited land forces in the war of 1812 in which the navy figured so creditably.

Others never to be forgotten are Captain Isaac Hull, commander of the victorious "Constitution," or "Old Ironsides," Stephen Decatur at the harbor of Tripoli, Macdonough on Lake Champlain, Farragut at New Orleans, and Dewey at Manila, and Sampson and Schley at Santiago, all of whom protected our native shores and won respect for our flag abroad.

And what of the countless other officers and men on all these ships, through all the generations, who stood loyally at their posts in the thick of the fight, facing death on every side, without whom victory would not have been possible?

They also served, although the measure is sadly unrecorded. Most of us "Remember the Maine," as we were exhorted to do after her mysterious explosion in February, 1898, as she lay in Havana Harbor on "good will visit."

Indignation over the death of two of her officers and 268 of her crew in actuality precipitated the war with Spain.

We cannot, we must not, forget the navy, and the spirit of the courageous men who wear the uniform of America, in the great right arm of national defense!

I sailed for Europe in 1918 on a transport. The convoy was fired on twice off the Azores, by enemy submarines.

I saw our navy men in action, the "destroyers" chasing the submerged craft as wild Indians in the old pioneer days of the west "bore down" upon a settlers' train of "prairie schooners."

A-I-I what a chase! How my heart beat with pride for the courage, the will, the fervor, the fearlessness, of the men of our navy. I returned to America in November, after the armistice, of an American cruiser.

The lights were on for the first time in about two years. The captain was making a mad dash for New York. We had a long list of serious casualties aboard.

The second night out of the French harbor of Brest we ran into the teeth of the severest storm in the Atlantic in a generation.

The great ship, 800 feet in length, cracked and snapped as though every seam would part.

The storm came suddenly. Even the barometer did not forecast its severity.

I was, with some war officers, in the salon, and could not get to my state-rooms.

Orderlies strapped us to great steel posts, with pads.

I watched our navy in action in a storm. The bravery of the officers and the 2,500 men, with merciless waves tossing over the quarterdeck, and the ship at times in a 40-degree list, again with bow almost perpendicular, cannot be described in words.

O, the splendor of our navy and the heroism of the men who brave the ocean's peril to serve country and flag!

The greatest disaster at sea was that of the "Titanic" when it struck an iceberg off the Newfoundland banks on the night of April 14, 1912.

The total loss reached 1,577, many of them among the most prominent citizens of this and other nations.

The tragedy was glorified by self-sacrifices which made heroes of men who otherwise would have been known only as men of finance, of the professions, or of diplomacy, or of society.

Standing on the throbbing decks of this wounded "queen of the sea" gallant men helped women and children into the lifeboats with smiles and comforting words when they knew their own chances of escape from the icy waters had been completely abandoned.

It was a Georgian, Major Archibald Butt, of August—at the time aide to President Taft, returning from a diplomatic mission abroad, who took command of the "Titanic" rescue work.

He was assisted by Colonel John Jacob Astor, Howard Case, and others of their type.

"Women and children first," shouted Major Butt, with revolver in hand. Only one man dared to disobey; or apparently wanted to do so. He tried to ship on a raft.

"Damn you, stay out or I'll kill you," shouted the Georgian. And he lost no time in obeying the command.

The saving of women and children was without discrimination. Those of the steerage were given the same consideration as those of the first cabin, as chivalry demanded.

Miss Marie Young, music instructor to President Roosevelt's children, who saw him just before his death, told this story of Major Butt's valor:

"When he had carefully wrapped me up he stepped upon the gunwale of the boat, and lifting his hat, smiled down at me.

"Good-bye, Miss Young," he said. 'Good luck to you and don't

Health Talks

BY DR. WILLIAM BRADY

CULINARY SCIENCE CONCERNS EVERYBODY'S HEALTH.

In giving us her method of making coffee an experienced housekeeper divulged what she called a cook's secret and warned against any mention of it in polite society—no I just published it here. It was the use of a little coffee with the coffee.

The lady advised four rounded tablespoons and one level tablespoonful of ground coffee and one teaspoonful of real chicory, for five cups of coffee.

The chicory question is a nice point of culinary health science as well as a secret of culinary art, and on this ground I deem it my duty to discuss it here.

Chicory is a wild plant, sometimes cultivated for salad. The cultivated chicory has a root like carrot or parsnip and the root when roasted is used in coffee, or even as a substitute for coffee.

Chicory was used as an adulterant of coffee in the past, the only sin about that was that the vendor did not tell the purchaser how much chicory he had put in the coffee. Such a day probably no coffee on the market is so adulterated. In any case, it is a doubtful whether any brand of coffee now marketed is so adulterated.

As the lady who gave us the method said, the addition of the chicory improves the flavor of the coffee. She is probably right about that. From the health viewpoint the use of any proportion of chicory with the coffee is quite commendable. It is a question for every cook to decide for himself or for his patrons or victims to decide.

Mrs. H. W. R.'s method of making coffee is not precisely identical with my own, but it sounds impeccable and I even suspect it may be a better way than mine. At any rate, I shall try it on the dog and we shall see.

There is no obvious association of coffee and hair tone, and yet what this correspondent says about chicory does remind me of the hair tonic situation, or more specifically the hair dye situation.

Chicory in coffee has a bad reputation because in the past perhaps somebody did market coffee adulterated with chicory. No sin about that, as I say, only the vendor made the mistake of concealing the fact that he put the chicory in the coffee, and the public, after all, resents deception, even though it involves no risk to life or health.

The hair tonic business has achieved a bad reputation in much the same way. Scores of these cosmetic nostrums have been launched and marketed with the false assurance that they are not dyes, notwithstanding the fact that they are dyes and many of them very satisfactory dyes, or at least as satisfactory as such an article can be. It is hard to understand why the vendors of hair restorers and the like deliberately attempt to misrepresent the character of their goods in this fashion or why they assume that the vendors of hair restorers and the like are not as honest as the vendors of

Riding the Circuit The Methodist Conference By Thos. M. Elliott

Alas! Alas! Woe betide us! Ecce! Our secret sin has found us out. Now it's just like this. In Sunday's Constitution we told of how 211 members of Old Man People's family gathered on all Saturday afternoon for the conference. The books were all decorated in the Tech and Alabama football colors. We have been accused by numbers of saints and others of exaggerating in the matter. Well, we'll be good, and just rest right up, that exaggerating is our besetting sin. But you know we have tried to overcome that one slight defect in our otherwise perfect character, and have shed barrels of tears over it and spent whole nights in prayer, trying to get free from that one defect. Oh, my! Oh, my! But you remember what David said in his haste.

The Calhoun Methodist church is not the largest church in the Dalton district, but it is accepted as having the largest Sunday school in all that section. L. D. Neal is the superintendent and the Rev. J. T. Eakes is the pastor. The school has nine Wesley Bible classes, and the class of 16-year-old boys is remarkable in that the entire class stays for preaching services, and often attend the mid-week meeting. The men's Bible class has an average attendance of 60, as against 28 last year. E. C. Squires is teacher and Frank Jolly class president. E. L. Jackson, former superintendent of the Calhoun school, is now engaged in promoting Sunday school work throughout the entire county, with fine results.

Rev. Marvin Williams, closing his fifth year at Wesley Memorial church, went to that congregation just after the successful pastorate of four years at Grace church. During his five years at Wesley he has received into the church more than 800 members, cancelled a \$20,000 debt on the pipe organ, and has raised for all purposes more than \$140,000. During his pastorate there has been a marked increase in attendance upon all services at Wesley. Mr. Williams is teacher of a young people's class numbering nearly 500 enrolled members. This year is said to be the most successful in the history of that church.

Goodbye Today.
Today is the last one of this year's conference session, and nearly all the appointments were completed Saturday afternoon, and will be read about noon today. Then come the goodbyes. Rev. W. Rogers, whose death occurred this year at Zebulon on April 9, e-joyed the distinction of having been in school at Washington and Lee university at the time General Robert E. Lee was its president. Mr. Rogers received his diploma direct from the hands of the beloved southern chieftain. It was an impressive coincidence that Mr. Rogers, on April 9, just 63 years to a day after the surrender of General Lee at Appomattox.

Rev. S. D. Cherry, of Chickamauga, is the conference's greatest fisherman. During the spring of this year Mr. Cherry went fishing, and brought home the fish, rather than the bacon. The fish weighed 15 pounds.

"I'm going to quit preaching and go into something where there is more decent politics," said a young preacher several years ago after trying the Methodist itinerancy for a few years. The young brother was disappointed in not getting promoted as fast as he wanted it, so he gave it up with the above mentioned expression.

The Griffin district banner charge is Zebulon, with Rev. G. H. Bailey as the preacher in charge. That charge this year paid 102 per cent of its benevolent assessments by the first of June.

Rides On Face.
The story of one preacher at the conference is that he said he never bought tickets when riding on the trains, but rode on his face. A brother who noticed the utter homeliness of the preacher remarked: "Well, the brother, from the looks of your face, I'd judge several others have been riding on it also."

Rev. L. W. Collins, so well known in Atlanta as former pastor of St. Paul Methodist church, is closing a two-year pastorate at the Augusta St. James church. The two years have been exceedingly fruitful, some 280 new members joining the church, and congregations attending the more than filled the house to overflowing. Mr. Collins was originally a musician, and combines this talent with his preaching, the musical theme and the sermon harmonizing in a splendid symphony. A noticeable thing about Mr. Collins' ministry is the unusual number of men and young people. He is the only pastor in the conference who has ever been called upon to hold a repeat service to accommodate the large congregation attending.

The conference laughed Friday when a brother arose to commend the character of a young man asking for admission. It was said that, immediately the words were said pronouncing him and his wife married, he spoke up and said, "Let us pray."

The per capita contributions of north Georgia Methodists for all purposes fostered by Southern Methodism is \$11.70 per year, while the average per capita contribution throughout all Southern Methodist conferences and missions in the United States is \$16.12. There are 41 annual conferences and missions in the

connection in America. The rank of this conference in the list of 41 conferences is 35th.

Songbooks for the conference session are being supplied by the Nashville Methodist Publishing house. The books used are complimentary copies of a new edition of the Cokesbury hymnal. In making selections for hymns to go into the new book the following members of this conference took part: Ministers—L. W. Collins, J. P. Ervin, W. T. Huntcutt, J. G. Logan, G. F. Venable and the late W. L. Pierce. Laymen—Mr. R. A. Field, Mrs. M. H. Hendee, Miss Florrie Harwell, Mrs. J. G. Logan, Mrs. W. B. Richardson, Mrs. J. C. White, Mrs. L. D. Yeargin and E. F. McGee.

Dr. Coster J. Harrell, a former member of this conference and pastor of Atlanta First Methodist church, recently won an award of \$25 for writing a 150-word sermonette to be printed on the back of a church collection envelope. Dr. Harrell is now pastor of Epworth church, Norfolk.

Lax Members.
Dr. R. L. Russell, of the Druid Hills church, former general home mission secretary, furnishes the following facts regarding the church members of America: One-half the church members have not the go-to-church habit; two-thirds pay little, if anything; three-fourths attend only one service weekly of those who go at all; the majority of the church members are outside of the local congregation; nine-tenths do no work for the church, and 95 per cent do no personal work whatever.

Rev. Frank Quillian, presiding elder of the Dalton district, has greatly improved church activities in that district by undertaking to inspire the churches to balance their books each quarter. This year four of the churches in the district reached that goal, while all the others made good progress in that direction.

It is said the Dr. Dry-as-dust recently declared with great gusto to his fashionable congregation something like this: "Brethren, unless you repent, in measure, and be converted, as it were, you will, I regret to say, be damned, to some extent."

The conference no doubt feels under great obligations to Mr. and Mrs. A. C. Boatman and Mrs. A. B. Cunyus. Mr. and Mrs. Boatman are in charge of the music at Wesley Memorial church, with Mr. Boatman as choir leader and Mrs. Boatman as organist. During conference sessions their work in directing the musical programs of the conference adds very materially to the success of each meeting. Mrs. Cunyus, of Cartersville, for more than 20 years has sung at the conference, with her appropriate voice, and discerning selection of numbers, always brings an appropriate message in her solos. She will never know the comfort and inspiration her songs have brought to the hearts of ministers especially. No doubt the conference would be glad to express its appreciation to these three members of the gospel of music.

Many visitors from all over the northern section of the state were observed at the conference seat Sunday. Many came the day before, that they might get the full benefit of an entire day's association with former pastors, and be present at the annual meeting at Wesley Memorial church. It was a glad scene to observe friends greet each other, oftentimes after many years of separation.

METHODISTS WAIT NEW ASSIGNMENTS

Continued from First Page.

tem. Four of the larger churches are left without pastors, and must be supplied. Grace church, Athens; First church, College Park and Trinity are all to be furnished new men. Dr. W. A. Shelton has completed the year's work at Grace since the death of Dr. Belk; Dr. W. P. King leaves Athens to go to Nashville as book editor; Dr. Wallace Rogers leaves Trinity to become missionary secretary, and Rev. S. A. Harris gave up his pulpit at College Park on account of his health.

In addition to those churches to be furnished pastors, four men have been transferred, two have transferred out of the conference, while several deaths have occurred, and a great number of three and four year men will find it expedient to move. All these phases enter into the matter, and all add to the seriousness of the problem of making the appointments.

Although no definite word has been officially announced, it is understood that a great many changes have been made in the pastoral assignments this year.

The love feast at Wesley Memorial church Sunday morning was attended by more than 1,500 people, most of whom partook of the bread and water, symbols of brotherly love, and took part in the service. Rev. W. W. Brinsfield, of Atlanta, was in charge of that special service.

Ordination of Deacons.
At 1 o'clock Bishop W. B. Beauchamp delivered the sermon, which was followed by the ordination of deacons. The afternoon session was a memorial session in honor of the ministers who have died during the year. At night Rev. G. M. Eakes, of Augusta, delivered the sermon,

which was followed by the ordination of elders.

Bishop Beauchamp, in his discourse, spoke of the "Real Christian Perspective." He suggested this as the chief concern, to get the viewpoint of Christ relative to man and the kingdom, adding that it rises above the philosophy and psychology of the human mind.

The bishop used the passage of scripture recording Christ's conversation with the woman of Samaria as the basis of his study for getting the Christ perspective. He said this perspective revealed Christ's conception of the infinite value of the soul and personality, which rises above accident and incident of human life. He illustrated his thought by referring to Bunyan, Gray Smith and S. P. Parks Cadman, each of whom was rescued from unpromising environments because some Christian worker sought to win soul and personality. The bishop pleaded with the pastors to make earnest effort to win personality to the kingdom.

The bishop also spoke of the Christ perspective as revealing consuming love and compassion for the multitude. He thought vast groups of men today distrust the church, because the church seems to have no compassion, Christ's attitude toward the multitude was the same as toward an individual. The Christ viewpoint, further, considered the vision of the world in its totality and all the people in it. The Christ regarded not racial lines and boundaries, but declared the real worshipers and followers of Him are those of His spirit wherever they may be and whenever they may appear. He concluded by saying that Christ not only taught this viewpoint, but also lived it, and died for it.

Deacons ordained following the bishop's sermon were: Revs. J. A. Beall, J. M. Connolly, S. H. Dixon, R. B. Hawkins, G. B. Henderson, G. G. Ramsey, R. W. Stone, J. L. Varner, J. E. Ward, A. W. Williams, A. W. McBreyer, R. J. Bond, R. A. Cross, P. Q. Echols, W. H. Gardner, E. E. Musser and J. E. Dempsey.

Memorial Session.
At the memorial session memoirs were read as follows: Of Rev. A. M. Spraberry by Rev. C. V. Weathers; of Rev. L. W. Rivers by Rev. C. V. Weathers; of Rev. W. O. Butler by Dr. E. F. Dempsey; of Rev. R. W. Rogers by Rev. R. E. England; of Rev. R. M. Dixon by Dr. E. F. Dempsey; of Dr. S. R. Belk by Dr. C. C. Jarrell; of Rev. Lucien Roper by Rev. J. C. Hayes, Jr.; of Rev. G. W. Tulin by Dr. C. C. Jarrell; of Rev. J. C. Atkinson by Dr. E. F. Dempsey; of Rev. W. L. Pierce by Rev. G. M. Eakes; of Bishop James E. Dickie by Dr. E. F. Dempsey.

At the night service Rev. G. M. Eakes, of the Augusta St. John church, formerly of the Decatur First church, delivered the sermon, using as his theme, "The Kingdom of God Within." Mr. Eakes urged that the supreme powers of life are those of the heart and spirit, which are essentially the powers of the kingdom of God. Following the sermon the following men were ordained elders: M. M. Maxwell, J. M. Guest, S. A. Dailey, E. O. Vickery, J. W. Lee, P. A. Turner and J. K. Kelley. J. D. Swagerty was ordained a local elder.

In his memoir of Dr. S. R. Belk tribute was paid by Dr. C. C. Jarrell to the unusual labors of Dr. Belk as a minister. Dr. Belk served as a pastor 44 years, 19 of which were in Atlanta churches, having served as pastor at Payne Memorial, Park Street, St. Mark, Trinity and Grace. He conducted 215 revival meetings, married 3,000 couples, conducted 4,000 funerals and was instrumental in 22,000 people becoming church members. He had a wonderful memory, and often declared that, should the entire New Testament be destroyed, he could reproduce it from memory.

Under such conditions the negotiations would have ceased immediately and the disturbance of Anglo-American relations would have been obviated. It was pointed out.

The present optimistic attitude in Britain is due to the apparent semi-favorable reaction in the United States to Viscount Cecil's recent suggestion for formulation of a bi-lateral Anglo-United States naval limitations agreement. Since it was principally the difference of opinion between London and Washington on the classification of naval armaments to be limited, such an agreement would go a long way towards elimination of obstacles in the path of a universal disarmament pact.

It is believed possible that the next British suggestion will be along this line, but it is anticipated that no concrete action will be taken until after the inauguration of Herbert Hoover.

LOST STUDENTS TELL OF WEEK IN SNOWS
Berkeley, Calif., November 18.—(AP) Little the worse for six days of hunger and exposure while lost in snow-clad mountains north of Lakeport, four University of California students, two of them co-eds, arrived here early today to the homes they left November 9 on a hiking trip.

John Dempster, 25, of Berkeley, was confined to his bed with a cold, and Minnie Rampey, 21, formerly of Logan, Utah, limped from a severe cut on her knee, suffered during the hike. The others in the party were Percy Vord, who would be willing to start out on another trip tomorrow, and Robert H. Keeler, 21, of Los Angeles.

Dempster, leader of the party, felt the strain deeply. He said: "I wouldn't consider another hiking expedition into the snow country—not even if it was an offer from Commander Byrd," he said. Keeler said he would like to return to the Lake county mountains for a hike—but in the summer. Anna Rampey, who was forced to throw away their packs. They wandered 40 miles, practically without food, for four days before their found a forest ranger's telephone, which they repaired in order to telephone for help.

Their message was received by a forest ranger's wife, A. ranger party hiked ten miles over a snow-blocked trail to carry them food and blankets.

WEST END MEETING OF BUSINESS MEN IS CALLED TONIGHT

A regular meeting of the West End Business Men's association will be held at 7:30 o'clock tonight in the auditorium of the Lee Street school, with a large attendance urged by officers in view of important business to be transacted.

Hewitt Chambers, president, Sunday night said that attendance of every member who could possibly arrange to be present, was desired, since the association tonight will make a final decision on the proposal to form a federation of civic clubs in southwest Atlanta.

EXPECT GRADY BOND ISSUE POSTPONEMENT

**Council Meeting Today Will
Probably Defer Proposed
Hospital Bonds.**

Because of insufficient time between now and December 5, election time, to acquaint voters with the importance of the \$1,000,000 bond issue for improvements at Grady hospital, city council today probably will amend its ordinance authorizing the bond issue, postponing it indefinitely.

Indications that the matter would be deferred until next spring were given Saturday with advice of Councilman Harry York, of the sixth, author of the bond issue paper, that he would concur in the amendment to be presented to council today by Alderman G. Everett Millican, of the tenth ward, chairman of the hospital committee.

It is expected that with the next consideration of the amendment by council will propose a general bond election to care for all the various departments of the city government, including Grady hospital, Battle Hill sanatorium, fire and police headquarters, sewer developments and school improvements.

Creation of a smoke abatement committee will be proposed in an ordinance to be offered by the bridge committee of council. Mayor Ragsdale recently appointed a committee composed of Dr. J. R. Bachman, Ellis B. Barrett, Frederick H. McDonald, James L. Wells, C. P. Deiter and H. L. Willis.

MATHERS OPEN STORE ON WHITEHALL TODAY

Another Mather store will open its doors to the public this morning at 171 Whitehall street and will be known as the Whitehall Mather company, identifying this store with the location in which it operates for the convenience of customers who may reside on the south side of the city.

The first Mather Brothers store in Atlanta was opened in 1920 at the corner of Hunter and Forsyth streets and last year moved to 229-231 Peachtree street, following the northward progress Atlanta has made, where it

will continue to do business in addition to the new store.

The steady growth of this organization is due to the keen business judgment and vision of Roy Mather and Cotton Mather, who organized the Austell Spring and Ladder company at Austell, Ga., in 1905, later changing the name to Austell Furniture company. Here they began the manufacture of two classes of furniture, bedroom suites and kitchen cabinets.

Realizing that Austell was an ideal location for a manufacturing plant because of the splendid living conditions—cheap house rent being available in a small town and the contented class of labor in a small town, which is of the permanent class rather than the shifting class usually found in large cities, this plant was established there.

The success of this organization was rapid from its beginning and the demand for Mather Brothers' furniture was greater than the output, so it was decided to establish two plants. On January 1, 1927, the Austell Furniture company was merged with the Austell Kitchen cabinet company, and it is under this name that the Mather Brothers' furniture manufacturing company now operates. Kitchen cabinets, bedroom suites, refrigerators, porcelain top tables and phonographs are manufactured by Mather Brothers, but the Austell Kitchen cabinet, its original product, is perhaps best known.

Besides the furniture of its own manufacture, the interesting stock of the Mather Brothers' company includes a variety of the best furniture made by the largest manufacturers in the world. Represented are Sligh, Lambert, Luce, John Widdicombe company and other high-grade manufacturers.

"In the Whitehall street store unusual values are made possible by the tremendous purchasing power of 15 Mather stores and our own manufacturing plant," officials point out. "The variety of styles in our large stock makes it appropriate for the modern American home, and choice is almost unlimited. Terms will be made to suit the customer, making it possible for the average family to furnish its own home with elegant furniture, paying for it out of the family budget. These facts, together with the usual courtesy which prevails at the Mather stores all over the south, will be a welcome service to our friends on the south side and others who will take advantage of the location of this new value-giving store at 171 Whitehall street. A cordial invitation is extended the public to visit this new store today and to become regular customers."

BABY BOY IS BORN WHILE AMBULANCE SPEEDS TO GRADY

His entrance into this world made in ambulance which was traveling hospital-ward at a rate of about 60 miles an hour early Sunday morning, the husky young son of Mr. and Mrs. W. W. Griggers, of College Park, was happily cooing at Grady hospital Sunday afternoon, seemingly quite pleased that he was born while traveling at mile-a-minute pace.

Mrs. Griggers, who is the mother of two small children, Sunday stated that a name for the newest member of the family had not been definitely decided upon but that she rather fancied calling him Grady Boswell, the former name for the hospital and later for the intern who attended the child at his birth.

Mrs. Walker Rests.

Hot Springs, Ark., November 18. (AP)—Here for a month's rest, Mrs. James J. Walker, wife of the mayor of New York city, today visited the Army-Navy general hospital and distributed cigarettes and candy to the invalid world war veterans. She was accompanied by Mrs. S. Rogers, of New York, and Mrs. Floyd Clardy, local legion auxiliary leader.

UNION LABOR WOULD DOUBLE MEMBERSHIP

**American Federation of Labor
Adopts Slogan for
Coming Year.**

New Orleans, November 18. (AP)—"Double trade union membership in 1928" was the slogan adopted by the executive council of the American Federation of Labor will lay before the forty-eighth annual convention of the federation which meets here tomorrow.

The council's annual report is a survey of the year's activity in organization. It said the paid-up membership of the A. F. of L. in 1922, 1923, was 2,893,913, an increase of \$1,387 over the previous year. Five hundred thousand members who were on strike or unemployed and for whom no tax was paid to the federation, are now included in the membership figures.

"Since reliable records," the report says, "show that in recent years the condition of groups of workers on jobs requiring previous training, that is, government in repetitive or highly specialized jobs, 'common' labor, women workers, have not advanced in proportion to those of other groups, particularly in the case of the latter."

Reiterating the federation's support of the five-day week movement, the council's report said that 105,029 union workers representing 20 industries now are enjoying the shorter week. The council stated that government reports indicated there were 8,076,550 wage earners in 1927, but that no government reports are available for 1928. The report gave instances where mechanical methods permitted seven men to do the same amount of work in casting pig iron that was formerly done by 60; two men doing what 125 performed in loading iron; one man replacing 42 in operating open hearth furnaces; one man operating a machine making 40,000 bricks an hour, which formerly required one man 711 hours. Some of the displacement of labor has been absorbed, said the report, in the creation of new industries and other activities.

RESERVE FOR DUTY TIMES.

Taking up public works, the report said that public officials are more and more turning their attention to preparing in ordinary time "for the period of stress which experience has shown is likely to follow in a few months or a few years. Several progressive communities had made definite plans to reserve work on unimproved parks, sewers and streets for future dull periods."

The report said that while the federation took a non-partisan course toward political candidates, but supported certain other nominees, the outcome would show that "the majority of members of congress elected will be friendly to the federation and the American Federation of Labor."

Summarizing international labor affairs, the report said that "the Pan-American union of labor is being developed to death with matters and policies of far-reaching importance to human relations in the Latin-American countries. We believe that commercial and industrial purposes should not be permitted to dominate Pan-American international relations."

SIREN IN PLANE TURNS ON LIGHTS AT LANDING FIELD

Pittsburgh, November 18. (AP)—Demonstration of a siren, sounded on an airplane in flight, turning on flood lights at an airport, was made at Bettis field here today by engineers of the Westinghouse Electric and Manufacturing company. "We said the device undoubtedly would prove a great aid to night flying."

Sour waves from the siren which is operated by a wind motor and turned on or off at the will of the aviator are picked up on the ground by an electrical "ear" and transmitted to an apparatus that turns on the flood lights, the engineers explained.

GENERAL BOOTH LOSING GROUND IN HEALTH FIGHT

London, November 18. (AP)—The progress which General Bramwell Booth has been making toward recovery from his serious illness appears to have suffered a setback today. He had a bad night Saturday and the medical bulletin issued tonight said "the condition of the general is unchanged. He has not passed too good a day."

High officers of the Salvation Army gathered at headquarters here tonight and anxiously awaited news from the sick room at Southwood, where their commander-in-chief still was maintaining his brave struggle against death.

His illness for several weeks has been marked by alternating periods when he appeared to show signs of improvement and by setbacks which made his condition again critical. All Salvation Army gatherings in England today offered special prayers for his recovery.

FORT M'PHERSON FATAL SHOOTING TO BE AIRED TODAY

A military tribunal at Fort McPherson today will investigate the death of J. N. Butler, private of the Twenty-Second infantry, who Saturday night received a fatal wound in his head from a shotgun, as he was walking on sentry duty past the window of a stable at the fort. C. F. Brannon, another soldier, is being held in connection with the shooting.

Play Sensation, 'Dracula,' Here For Week's Run

Theatergoers who enjoy a quick-fire procession of thrills, surprises, shudders and sensations will have a treat in store for them when "Dracula," the melodramatic mystery thriller comes to the Erlanger theater tonight for a week's engagement, with matinees Wednesday and Saturday, direct from its sensational successful engagement of one entire year at the Fulton theater, New York. Here is one play that is bound to stir the most jaded nerves and quicken the pulse of the most sophisticated.

"Dracula" is now on a tour of the country that will take it to every city from coast to coast. Everywhere, its record in New York and his sister, the vaudeville picture house is showing a remarkable show in the current Paramount news pictures actual scenes of the rescue at sea of the Vespris survivors who were thrown into the sea when the ill-fated steamer foundered of the Virginia capes.

In addition to the personal appearance at the Georgia this week of Francis X. Bushman, Jr., and his sister, the vaudeville picture house is showing a remarkable show in the current Paramount news pictures actual scenes of the rescue at sea of the Vespris survivors who were thrown into the sea when the ill-fated steamer foundered of the Virginia capes.

Each week there comes into the Atlanta office some evidence of this kind of thing, which is said to be the surest foundation for the establishment of world peace. The most recent receipts are from Czechoslovakia and Rumania, as well as gifts of dolls and pieces of handiwork from these countries.

These portfolios and gifts serve many purposes. They not only furnish information about these distant lands to our own juniors but they furnish topics for school work through the material by which the various school subjects might be impressed and made real.

For instance, the study of English is made very real by studying about the authors of other lands; history becomes almost personal in the light of what other countries are doing and have done; geography becomes a live subject when it means location of these other countries. In short, the pleasure of receiving gifts and books made for the Atlanta juniors by the juniors of other countries, is only one of the reasons for this foreign correspondence.

ELUSIVE LEPER DECLARED CURED OF DREAD MALADY

Washington, November 18. (AP)—The United States public health service today announced John Early, 50-year-old North Carolina mountaineer, whose many escapes from leper colonies caused consternation among health officials, had "recovered" from leprosy.

"In scientific parlance his leprosy is arrested," said a statement issued by the health service.

The announcement hailed Early's case as "another triumph in medical medicine," and credited the mountaineer's "eccentricities" with having contributed much to the passage of new laws placing lepers under the care of the public health service and to awakening public interest in the leprosy problem in this country.

Early, who once resided with a wife and three children in the National Leper home at Carville, La., where he recovered, will return this month to his home in the mountains near Marion, N. C., free from the disease but carrying its scars.

Microscopic tests of his blood and tissue showed that the disease has been "arrested" and it was announced that "there is scant danger of a relapse, however, as since 1921 only one recovered leper has been discharged from the Carville institution by the public health service has suffered a recurrence of the disease."

Early's recovery was brought about by the injection of chaulmoogra oil.

WILLIAM DENTON, PIONEER OF WARE COUNTY, PASSES

Waycross, Ga., November 18. (AP)—William M. Denton, 86, one of the oldest and one of the most widely known citizens of Ware county, familiarly known throughout the section as "Uncle Willie," died Saturday at his home in Bickley, following an illness of about two weeks. He was laid to rest Sunday morning at Mount Zion cemetery, near Bickley.

"Uncle Willie" moved to Bickley 52 years ago, as an infant, and has spent the remainder of his long life in that community. He has been engaged for many years in the mercantile business and also managed large farming interests.

Besides his wife he is survived by two sons, Max and W. M., Jr., all of Bickley.

Funeral services Sunday morning were conducted at the Bickley Methodist church, and interment took place at Mount Zion four miles from Bickley, the services at the grave being in charge of the Waycross Masonic lodge, of which the deceased was a member.

Coming to Erlanger.

Carrying the indorsement of a two-season run on Broadway and long engagements in other cities of this country and in London, Schwab and Mandel's superb musical play, "The Desert Song," will open a full week's engagement at the Erlanger theater on next Monday night, November 26, with matinees on Thursday (Thanksgiving day) and Saturday. "The Desert Song" is a play of big proportions and has been staged in a lavish manner. The scenes are laid in Morocco at the time of the recent Riff rebellion.

Keith's Georgia.

In addition to the personal appearance at the Georgia this week of Francis X. Bushman, Jr., and his sister, the vaudeville picture house is showing a remarkable show in the current Paramount news pictures actual scenes of the rescue at sea of the Vespris survivors who were thrown into the sea when the ill-fated steamer foundered of the Virginia capes.

Loew's Capitol.

Eddie Mayo and his Harmonica band, one of the funniest acts in vaudeville, will appear as the headline attraction on the vaudeville bill which opens Monday at Loew's Capitol theater. There are 12 people in the act. As a special feature Eddie Mayo will stage a "harmonica contest" during the week. The prize offered is \$100.00. The contest is open to all who play on the "harp."

Howard.

"Wings," Paramount's mighty spectacle of aviation, is being shown at

Skin Naturally Lovely

when make-up
is removed this
special way

LOVELY women of stage and screen are wise in the ways of beauty. And they have found a way to use beauty oils that is most soothing and effective in removing rouge, powder, the grimy accumulations of the skin. There is a way in which you may benefit by their discovery.

In Palmolive, oils of palm and olive are skillfully blended to provide a complexion soap of rare accomplishment. Here is a proved rule for keeping your skin lovely, despite make-up, grime or dust.

With your two hands massage face and throat thoroughly with a creamy lather of Palmolive and warm water. You can actually feel your pores respond. Rinse well with warm water graduated to cold. Dry by patting skin gently with a soft towel.

In the morning, add finishing cream after this treatment. Then (and then only) are you ready for rouge and powder.

This simple and amazingly effective beauty formula is so inexpensive, too; for Palmolive costs but 10c a cake. Get a cake today. Colgate-Palmolive-Pet Co., Chicago, Illinois.

The Tone's the Thing In Radio!

Phillips & Crew insist that every Radio they sell must have the best possible tone obtainable at the price. And a long experience with Steinway and other high-grade Pianos has given Phillips & Crew a knowledge of tonal values that but few Radio dealers can hope to possess.

Then, if you want to buy the set, we'll sell it to you for as little money as it can be bought from any responsible source. We will make the terms easy.

Radios are peculiar things. A set that works perfectly in one place is not so good in another. And that is the reason that we offer to lend you a set to try out in your own home. Our experts will install it and carefully adjust it until it gives you the best results you can get from any set of the same price.

Why not phone WALNUT 8061, or drop in today, pick out a set that you think you would like and let us install it for you? There will be, of course, no obligation.

A YEAR OF *P*ROGRESS

IT HAS been just a year since the new Ford was introduced. At this first anniversary, it is interesting to review the record of the months just passed and see what has been accomplished.

Since December 2, 1927, nearly 750,000 new Ford cars have been built. Production has been gradually increased from a few hundred a day to 6000 a day. We expect to make 2,000,000 automobiles in 1929.

These are impressive figures. But they are only that. Figures of themselves are unimportant.

The big thing is that the new Ford has delivered a service beyond all expectations. The promise of a year ago is now an accomplished fact.

New Ford is the expression of an ideal

Our policy has always been to regard ourselves as charged with making the best automobile it is possible to make at a low price. That is our mission. We have done it for more than twenty years. The public expects us to keep on doing it.

That obligation includes good design as well as good materials. We hold it our duty to permit nothing to stand in the way of progress, yet we do not make changes simply for the sake of making them. First, it must be demonstrated that what seems like an improvement in theory is an improvement in practice.

THE new Ford has made a high place for itself because it is built on sound principles. There is nothing of an experiment about it.

The whole effort has been toward simplicity—to give you outstanding service with as little machinery as possible. That is where experience counts. Built into the new

Ford is everything we have learned in the making of fifteen million automobiles.

The motor has made a remarkable record

Take the motor. It has made a remarkable record because it combines every essential feature of good performance—power, acceleration, smoothness, speed, reliability, economy and long life.

Not just acceleration. Not just smoothness. Not just speed. But the most of all of these features that can be built into a low-priced car without cutting corners or sacrificing quality anywhere along the line.

We were building more than a motor when we did this. We were fulfilling the public's trust in us to make the best selection for their use. Had any other type been better, we would have chosen that.

Value of simplicity shown in performance

Daily, in the performance of the new Ford, you can see the value of its sound simplicity of design, its balance, the care with which it is made, and the quality that has been put into it.

It will do 55 to 65 miles an hour, which is fast enough for anyone. You know how quickly it accelerates. You have seen how it climbs the hills on high. If you drive a new Ford you know its economy of operation and low cost of up-keep.

From every part of the world come reports of its reliability and endurance. Many of the new Fords have been driven 50,000 miles in

"The new Ford car embodies the best results of our experience in making 15,000,000 automobiles. We consider it our most important contribution to the progress and prosperity of the country, and to the daily welfare of millions of people."

Henry Ford

In a word, the quality of the new Ford goes clear through. Nothing has been done for show. No one part has been given undue prominence at the expense of another.

Constantly making a better automobile

The new Ford was a good car when it was first introduced. We made sure of that before we asked you to buy it. It is a better car today.

Constantly we are finding new and better ways of doing things. As soon as we are sure of them we put them into the car. There is no such thing as a yearly model. Why should there be? As we make improvements, they are so planned that owners of previously built cars may take immediate advantage of them.

EVERYTHING that has been done has been done with one purpose—to bring the benefits of modern, economical transportation to all the people.

Our mission is to make the best automobile that can be made to sell at a low price. In ever-increasing measure, the new Ford is the expression of that ideal.

the past year. Some more than 100,000 miles. There is no telling how far they will go. The average life of the Model T was seven years. We believe this new car will do even better.

THE engine is the heart of the motor car, of course. Yet there are other features almost as important. We refer particularly to the safety of the fully enclosed six-brake system of the new Ford. To its really remarkable smoothness and stability at all speeds and its easy-riding comfort. To the beauty of its lines and colors. To the ease of control. To the Triplex shatter-proof glass windshield. To the electric welding that makes it such a strong and sturdy car.

WOMAN BADLY HURT IN AUTO COLLISION

Police Hold Negro and Seek
Another Driver in Second
Accident.

Following a collision between their automobiles early Sunday night Mrs. W. L. Shackelford, of 283 Moreland avenue, was at a local hospital suffering serious internal injuries and Rupert Thrasher, negro, of 519 Bedford place, was being held without bond at police headquarters pending the outcome of Mrs. Shackelford's injuries.

According to police reports Mrs. Shackelford was making a right turn into Piedmont avenue when her automobile was struck by that driven by Thrasher, who was going north on Piedmont avenue.

Thrasher received a fracture of the arm and the Harris negro riding with Thrasher, suffered minor cuts and bruises. Call Officers Richardson and Elliott arrested Thrasher after the crash.

Police late Sunday night were searching local hospitals for Dixie Edge, of East Atlanta, thought to have been the driver of an automobile which figured in a crash on Grant street, near Glenn street late Sunday afternoon.

According to police reports Edge attempted to drive his car past a street car and struck a machine owned by J. A. Davies, of Decatur, which was parked in front of 600 Grant street. The automobile driven by Edge is said to have knocked the Davies machine across the sidewalk and into the front yard of a residence occupied by G. O. White, where it tore down a concrete post.

Aubrey Sikes, of 709 Killian street, a passenger with Edge, was held on suspicion by police following the wreck. Edge was said by witnesses to have staggered away from the scene following the crash with blood spurting from his head, and it was thought that he was seriously injured. Sikes escaped injury.

Harry Leach, of 676 Ponders avenue, suffered a fractured leg and lacerations over the body when he was struck down at the intersection of Marietta street and Ponders avenue Sunday morning by an automobile driven by J. B. Shiffer, of 708 Myrtle street. According to a report made to police Sunday morning by Shiffer, he was making a right turn into Ponders avenue from Marietta and struck Leach when the latter stepped from behind a parked automobile directly in the path of the machine.

Dr. Josiah Morse, of the Temple Sisterhood, Dr. Josiah Morse, of the University of South Carolina, will speak on Tuesday evening on the topic, "Religion in This Age of Science." The lecture will be given

DR. JOSIAH MORSE WILL SPEAK HERE TUESDAY EVENING

Under the auspices of the Temple Sisterhood, Dr. Josiah Morse, of the University of South Carolina, will speak on Tuesday evening on the topic, "Religion in This Age of Science." The lecture will be given

DR. JOSIAH MORSE.

at the temple, on South Pryor and Richardson streets, and tickets can be secured from Mrs. David Marx.

Professor Morse is one of the outstanding personalities in the educational and academic circles of this country and is well-known in Atlanta by reason of his previous popular appearances here.

The author of many books and articles on psychology, education and religion, Dr. Morse is a fellow of the American Association for the Advancement of Science, a member of the American Psychological Association, a past president of the Southern Society for Philosophy and Psychology, president of the University race commission, an A. M. of Richmond college, Ph. D. of Clark university, a member of Phi Beta Kappa and Omicron Delta Kappa, and has taught at many of the leading universities and colleges of this country.

BAPTIST STUDENTS FINISH CONFERENCE

Macon, Ga., November 18.—(AP)—The fourth annual conference of the Baptist Student Union of Georgia came to a close at Mercer university this afternoon, after three days of meetings, group forums and prayer.

Dr. Harry Clarke, of the faculty of Furman university, who delivered an inspirational address to the delegates in the Tattall Square Baptist church this morning, told the delegates that he hated to see any college student with a pious expression on his face, serious intention. "What he likes, he said, is for the student to stand out for himself and to be different."

"Ride on the land with President Clarke," "but before Jesus Christ."

Dr. Clarke stated that 10 per cent of college students surrender their ideals to the public rather than 90 per cent, as is usually believed. One of six is a leader, he said.

Today's program opened with a sunrise service. It was followed by a symposium of "students' expressions of faith led by Madam Marshbanks, student of University of Georgia; Charles Richey, Georgia Tech; Miss Jessie Mae Turner, Mary P. Williamson school, and Fred Forrester, of Piedmont college.

A business meeting occupied most of the remainder of the day, with Dr. Clarke delivering another address. The conference closed with a "prayer" by Berry Floyd, of the University of Georgia.

About 200 students attended the conference. Miss Evie Epps, state president, presided at the meetings.

METEOR SHOWER TO COVER EARTH IN 1932, ESTIMATE

Philadelphia, November 18.—(United News).—Brilliant specks in the sky this week that marked the earth's passage through the path of the Leonid meteors indicate that the earth probably will witness a "night of fire" in 1932 or 1933, Professor Charles P. Olivier said today.

Professor Olivier observed the meteors this week to see if there was an increase over last year, which would indicate that the Leonids were approaching a maximum within five years. He said that his observations had led to believe that the night of November 12, 1833 would be duplicated. On that night the sky was ablaze with meteors. Many thought the earth was coming to an end. More than 25,000 meteors were seen by a single observer in Europe.

The professor is president of the American Meteor society and a member of the University of Pennsylvania faculty at the Flower observatory at Upper Darby.

Until a month ago Clemenceau had never seen a motion picture with the single exception of one private showing at his home.

The former premier arrived at the theater in a taxi and jumped to the pavement with the agility of a school boy. He stood in the rain for a few minutes talking and joking with his old friend, General Morlaco, formerly Clemenceau's military attaché, who was waiting to receive him.

Clemenceau watched the performance in silence and at the end exclaimed: "Marvelous!"

GENERAL BOOTH
PASSES BAD NIGHT

London, November 18.—(AP)—"General Booth passed a bad night," was the bare statement issued at Salvation Army headquarters this morning on the condition of the aged commander-in-chief who is seriously ill of nervous prostration.

This afternoon's bulletin said there has been no change in the general's condition.

CALLE PREVENTS MEXICAN POLICE STOPPING PAPER

Mexico City, November 18.—(AP)—The Sunday edition of Excelsior, amounting to about 100,000 copies was held by the police today in the plant for more than eleven hours until the newspaper obtained the intervention of President Calles.

Although the officers declared that their orders came from police headquarters, there was no explanation of the reason for forbidden circulation of the paper and no person was named as responsible for the order.

Twenty policemen and several detectives appeared at the newspaper plant at 2 a. m. and announced that the paper would not be allowed to go out. Nevertheless the edition was run off while the management attempted to get in touch with President Calles. Attempts to send out the papers were balked by the strict police guard throughout the morning.

President Calles was reached in the early afternoon. He immediately countermanded the police orders and said he was unaware of where they originated.

Excelsior has been under an official boycott since November 7 because of the character of the articles it published on the trial of Jose Leon Toral for the murder of General Obregon, but there has been no previous attempt to prevent its circulation.

THROWN FROM CAR ON ROUGH ROAD BABY IS KILLED

Tennille, Ga., November 18.—(AP)—Thrown from his father's automobile when it struck a rough place in the road, James Zaccaria, 2-year-old son of Mr. and Mrs. Charles A. Page, was killed near here today.

The elder Page said he was not driving fast when the automobile struck the rough place, but the car lurched suddenly and the child was hurled from the seat before he could grasp it, striking the ground on its head.

Stopping the automobile almost instantly, the father said the child was lifeless when he reached it. He rushed his son to a doctor, but efforts to revive it were futile.

Mr. Page is a well known farmer and cotton merchant.

PENNINGTON RITES.

Montezuma Pioneer Laid To Last Rest.

Montezuma, November 18.—(Special).—Funeral services were conducted from the residence Saturday morning for W. M. Pennington, 74, well-known citizen of the Montezuma district whose death occurred Thursday afternoon at the home of his son, W. B. Pennington. Mr. Pennington had suffered for some time from bright disease and heart trouble, but had been confined to his home only during the past month.

He is survived by two sons W. B. Pennington, of Montezuma and Ulin Pennington of Andersonville, and two brothers, Marion Pennington, of Montezuma and J. S. Pennington, of Jacksonville. The interment was at the Andersonville cemetery.

A Reorganized Community Chest Appeals for Your Support NOW!

THE ATLANTA COMMUNITY CHEST has been entirely reorganized. The officers are new, the directors are new, the committees are new, and the plan and policy of operation are new. This has been done to broaden and strengthen the organization, to make it more representative of the community. And in carrying out the plan, all the good work and all the good personnel of the past have been preserved.

Already the administrative and overhead expenses have been reduced nearly forty percent, and economies are still being put into effect.

Certified public accountants have been employed to audit the accounts monthly. Their monthly reports are being printed in the daily newspapers. Statements showing every dollar received and how every dollar is expended will be published regularly. Every day during the campaign auditors and accountants will check the work of each day and certify as to its correctness.

The Community Chest is on an economical, efficient, business basis.

These plans have been carried out so that the Chest may merit public confidence. It is more than ever entitled to that confidence. The names of the men and women composing its Board of Directors, its officers and committees, guarantee honest, efficient operation.

The Budget Committee has worked diligently and unsparingly on the separate

budgets of each charitable agency affiliated with the Chest. The conclusions of this committee have been examined and considered by the Budget and Finance Committee, and the entire Board of Directors who have endorsed and approved the conclusion that \$480,000 is the minimum amount that will enable the Community Chest to provide the charitable agencies with the minimum funds necessary to adequately perform their work in 1929.

In this conclusion, there is no trading being done with the public. The amount named is the necessary minimum. Any less amount will mean that suffering must go unrelieved in the community.

Stripped of words and titles, the Community Chest is organized to provide for the destitute and suffering who are dependent upon the community, and it aims to prevent the existence of poverty with its attendant suffering by developing self-reliant citizens.

Stripped to its naked meaning, that's what the Community Chest asks Atlanta to do in the coming campaign.

LET'S DO IT!

W. C. Wardlaw
President

It's time for *You* to give

BURGESS CHILDREN'S STORIES

RUSTY BITES A TAIL.

BY THORNTON W. BURGESS.

One way in will do for me, but two ways out I want to see. —Rusty the Fox Squirrel.

Rusty the Fox Squirrel was in a disturbed state of mind. Yes, sir, he was quite upset. He was in a strange hollow tree. That means it was strange to him. He had taken a nap on a bed of leaves. Now, leaves do not get into hollow trees unless they are put there. A few may blow in, but not enough to make a comfortable bed. Therefore, some one had made this bed in which Rusty had been sleeping. When he had first found it he had been quite sure that this hollow tree house was deserted. But now he wasn't so sure. He had been awakened by the sound of claws on the outside of the tree.

A back door is a good thing to have. Johnny Chuck would tell you that. Rusty would tell you that. Old Man Coyote would tell you that. But houses made in hollow trees seldom have back doors. There was no back door to this hollow tree house. There was only one way out and, of course, that was the only way in. Rusty thought of this now as he listened to the sound of the claws on the outside of that tree.

"I guess," thought Rusty, "that it would be well for me to get out of here right away. If there is an owner to this house and he should find me in here he might make it very unpleasant for me. I'll get out right away."

He looked up at the entrance, and just as he did so the entrance was darkened by some one who thrust his head in. In the dark Rusty couldn't see what that head looked like, but he could see that, whoever it was, he was quite big enough to fill the doorway, and that meant that the visitor was bigger than himself. Rusty was scared. He didn't like the size of this newcomer and he didn't like the smell of this newcomer. But what could he do? There he was, trapped! He couldn't squeeze past and there was no back door. Rusty was in a panic. Whatever should he do?

But the stranger did not come down to where Rusty was. He turned around and then poked his head outside and there he sat looking out. It was quite evident that this was his home. He had the air of ownership. Rusty waited and waited.

Now, hanging down was a tail. The end of the tail almost reached Rusty. Now and then it moved. Rusty right away discovered that it was a queer tail. It was nothing at all like his tail. Goodness, no; it was nothing at all like his tail! It didn't have any hair on it. Rusty wondered if the hair had fallen from it or if it had never had any hair.

"I don't see what use a tail like that can be," thought Rusty. "Now, when I jump that tail of mine balances me. In winter, when I sit back to the wind, that tail protects my whole back. When I curl up that nice, big tail of mine around me and it helps to make me warm and comfortable. But what can fellow do with a tail like this one? It looks to me like a useless tail."

At just that moment a thought came to Rusty. What would happen if he should bite that tail? Would it scare the owner so that he would run away? Anyway, it would be almost certain to give him a chance to get out. If he should be ready to dash out of that

entrance as soon as the owner went out he would have a good chance to escape. It was his best chance. Rusty reached out to bite that tail, but just before he set his teeth in it he drew back. His courage was not quite equal to that bite. Three times he

Rusty was in a panic. Whatever should he do?

started to bite and didn't. But the fourth time he did. Yes, sir, he bit that tail and right away things began to happen.

The next story: What happened at the Hollow Tree.

FLUTTERING FULLNESS.

Select printed chiffon velvet, crepe faille silk, georgette crepe, dull flat silk crepe, crepe satin, plain sheer velvet, crepe Elizabeth, or velvet for Style No. 283, a becoming fashion for all-day wear. It has lovely fluttering fullness at front of skirt, which is attached to waist in scalloped outline. The neckline is youthful with rever collar. The back is perfectly straight and slender. Pattern comes in sizes 16 years, 38, 40, 42 and 44 inches bust measure. The 36-inch size requires only 3 1/2 yards of 36-inch material with 1 1/2 yard of 36-inch contrasting and 3 yards of ribbon. Price 15 cents in stamps or coin (coin preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Winter Fashion magazine, showing all the most attractive Paris styles. Also embroidery and interesting ideas for Christmas gifts you can make.

Address orders for this pattern to Annette Fashion Department, care The Constitution, Atlanta, Ga.

BAINBRIDGE PLANS HOSPITALITY DAY FOR ALL VISITORS

Bainbridge, Ga., November 18.—"Georgia Hospitality Day" will be observed in Bainbridge Tuesday by housewives and the Kiwanis club entertaining all the visitors to the city on that date with a bountiful dinner of Georgia products at the Bon Air hotel. The Woman's club, under the leadership of Mrs. A. B. Conger, president, is urging every one to use Georgia products on that day. E. J. Perry, president of the Kiwanis club, will be master of ceremonies on Tuesday when Bainbridge expects a great many traveling men and tourists to her guests of honor through the courtesy of Kiwanians.

That Constant Backache

Is Often Nature's Warning of Sluggish Kidneys.

Do you feel always tired and achy? Suffer nagging backache, drowsy headaches and dizzy spells? Are the kidney secretions too frequent, scanty or burning?

These are often signs of improper kidney action and should not be neglected.

Doan's Pills, a stimulant diuretic, increase the secretion of the kidneys and thus aid in the elimination of waste impurities. Are endorsed everywhere. Ask your neighbor!

50,000 Users Endorse Doan's:

C. H. Doan, 221 N. Elm Street, Wichita, Kan., says: "My kidneys acted too freely which caused me a good deal of trouble. I had a dull ache in my back and my back became so sore and lame it was a task to straighten up. After using Doan's Pills my kidneys were in good condition and the backache left me. I haven't suffered since."

A PRACTICAL AND COMFORTABLE GARMENT.

6265. Materials in nursery designs, flannel, outing flannel, crepe, crepe de chine, long cloth and madras, as well as pongee and albatross may be used for this model. The garment has a convenient drop back, and may be finished in knee or ankle length. Shaped facings trim the fronts and the neck edge. A small pocket is arranged on the front. The sleeve has fullness at the wrist above a narrow band cuff. As pictured, crepe in a nursery design was used with facings of white lawn.

The pattern for this style is cut in 6 sizes: 2, 4, 6, 8, 10 and 12 years. A 6-year size, in ankle length will require 3 1/4 yards of 27-inch material together with 7/8 yard of contrasting material for facing on fronts, necks, pocket and cuffs. If made in knee length 3/8 yard less of the figured material will be required.

Pattern mailed to any address on receipt of 10 cents in silver or stamps.

Send 12 cents in silver or stamps for our up-to-date Fall and Winter 1928-29 Book of Fashions.

Address orders for this pattern to Beauty Fashion Department, care The Constitution, Atlanta, Ga.

OTTINGER FINALLY CONCEDES DEFEAT IN N. Y. CONTEST

New York, November 18.—(AP)—Albert Ottinger, the republican candidate for governor, today conceded his defeat and sent a telegram to Franklin D. Roosevelt at Warm Springs, Ga., his successful opponent, congratulating him on his victory in the election.

At the same time Mr. Ottinger issued the following statement: "With the official canvass of votes nearly completed, it is apparent now that the final result will vary but slightly from that indicated by the police returns a few days following the election."

"The winning candidate is practically maintaining through the officials' canvass his margin of less than one half of one per cent of the total votes of over 4,000,000."

"I take this opportunity of congratulating Mr. Roosevelt, wishing him a successful administration in the interests of all the people of the state of New York."

VATICAN DENIES ENVOYS PROTEST GIRLS' ATHLETICS

Rome, November 18.—(United News)—A communique issued today by the Premier's press bureau characterizes as "factious statement" by the Vatican newspaper L'Osservatore Romano Thursday that all ministers had protested the holding of girls' athletic contests in Italy.

The Vatican organ had printed an editorial criticizing the plans for national contests in Italy in 1929 as "un-Christian" and stating that all min-

Little Jane Wanted It purple velvet and ermine---

But mother preferred just what the routeman had brought---

A Snowy, Immaculate Family Wash

LITTLE JANE (who had just become a perfectly good royal princess) was holding court when Mr. Smith, the routeman, brought the laundry bundle.

"And now," said the haughty princess, "a fairy has taken your clothes and turned them into beau-ti-ful purple velvet robes trimmed with white fur. Untie the golden string, my Lady-in-Waiting!"

The Lady-in-Waiting, otherwise known as "Mother," opened the package and began sorting out fresh, dainty garments and flatwork into different piles.

"Mother," said Jane, suddenly forgetting her royal dignity, "if a fairy gave you the chance to turn those clothes into any kind of dress, what kind would you wish for?"

"A blue velvet," said Mother. "But I don't know! Honey, I believe . . . I'd rather just have the wash come back the way it always does, with everything perfectly clean like this. It gives me a lot more satisfaction . . ."

When you turn over your family wash to one of these dependable laundries, isn't it just as if a good fairy had filled three wishes for you? The first wish, for more leisure time; the second, for beautiful laundry work always—the third, for a truly economical service.

5 Family Wash Services for your convenience

Wet Wash: Everything washed in mild suds and rinsed in eight to ten changes of water. The excess water is removed and the bundle is returned damp, sweet and clean, ready to iron or hang up to dry.

Thrift-T: Everything carefully washed and thoroughly rinsed in eight to ten changes of water. The excess water is removed. All flat work is ironed. Other work is returned damp, ready for starching.

Rough Dry: (Dry Wash). Everything washed. Articles like knit underwear, hosiery, bath towels are fluffed dry ready for use. Flat work is neatly ironed.

Homestic: A most acceptable medium-priced ironed service. Flat work is tastefully ironed and folded. All wearing apparel is ironed.

Prim-Prest: A finer laundry service. Everything washed in the purest of soft water and mild suds; everything beautifully ironed, ready to use or put away—a dainty service, complete in every detail.

THE YOUNG PRETENDERS

By Alice Grant Rosman

SYNOPSIS.

While lying helpless in bed after a motor accident, Hugo Donaldson broods over the fact that his father, with whom he is quarreling, has just died and that his mother and the servants are keeping it from him. His aunt, Lady Eleanor Wise, a great gossip, comes to call and tells Hugo that his friend Paul Mottram is in prison for stealing and that he has married some girl of whom his family disapproved and that Boney comes and tells Hugo the story. Paul, she believes, has been the victim of blackmailers and his family, because of his marriage, has failed to stand back of him in the affair. Boney accuses Hugo that she was never engaged to Paul, but because of her lifelong friendship for him she would like to help him. Dr. Hissop, Hugo's physician, brings a famous nerve specialist to see his patient.

INSTALLMENT XIII. THE RIGHT SPIRIT.

The faint smile was there again on the doctor's face, so shrewd and understanding that Hugo felt abashed. "I'm afraid I have pulled your leg. Sorry," he admitted. "I didn't dream about the beastly things."

"Well, you produced a nice poser for me, I must say, with your cuneiform inscriptions that you didn't know the meaning of."

"That part was true," said Hugo in eager apology. "I simply said the first thing that occurred to me, because you see, I know about that fellow and the dreams."

"Fellow? . . . O, you mean Freud? Yes, I suppose you youngsters of the present day would know about Freud. What do you think of him . . . interesting?"

"I thought it was the most awful bilge I'd ever heard," admitted Hugo, "only it's as well to hear these ideas and I dare say I'm all wrong about it."

"That's the spirit. Hear as much as you can and believe as little and you'll keep that steady mind we were discussing," said Sir John with a very kindly look. "As for Freud, he was a good showman. He took an idea and dressed it to please a mad generation and help it to greater madness. However, he's growing old fashioned so I don't think we need worry about him. My interest in your dreams had no relations to the fellow, but to the state of your nights, which are none too restful, I dare swear."

"They are pretty beastly," said Hugo, strangely grateful to find some one who neither talked down to him as a child nor lied to him as an invalid. He wondered whether Sir John knew his father, but though he felt he could ask him many things that question would not come.

They talked on so the night or his dreams just then, but of casual outside things, the specialist, with the incident of the cuneiform inscription before him, delicately establishing communication with his patient.

"You can't read, to pass the time, I suppose?" he suggested presently.

"It makes me so tired," admitted Hugo. "I think it's not being able to move you know, but I want some one to read to me in the daytime and I'm going to ask about that . . . Newspapers . . . because I can't lie here forever and never know anything, can I? Don't you think that's a good idea?"

"Nothing could be better. I'll insist upon it, shall I?"

"Thanks awfully."

They smiled at each other, a conspiratorial smile. "They seem to think they ought to keep everything dark," said Hugo suddenly confidentially, "and when you are tied by the heels and can't go and see for yourself, it's rather maddening sometimes. And you've no idea what liar people are, without meaning to be. I hear them discussing what sort of night I've had and I lie here and grin, for after all they are my nights, not theirs. They can't know."

"So you let them have their fun and say nothing, eh? What have they been keeping dark from you, my boy? Anything I can give away?"

"No, thanks," said Hugo, with his dark look. "I've found them out." "I see. You were one too many for them, were you? Sir John stood up and came to the bedside, holding out his hand in farewell. "Don't worry about their paltry little secrets," he advised. "Save them up for my next visit and I promise to keep nothing dark. But none of your

posers about cuneiform inscriptions to trap an innocent old man, you know."

The shrewd eyes were watching him and a sudden fear caught Hugo's heart. Was Sir John going to repeat all this to Tright and Hissop and his mother? Was he like all the rest of them? He could almost hear them talking it over and over. They might even tell his father about the cuneiform inscriptions and his father would know that he had been looking him up.

A great idea presented itself to Hugo in a flash. He would confide in Sir John about Archer. It would be a sort of indirect message to his father for if cuneiform inscriptions really had to do with old Assyrian writing, wasn't that only another proof of the tie between them?

"I know what made me think of them now," he said. "There was a chap named Archer who lectured about Syria at Oxford . . . an archaeologist, he was, and I daresay he must have mentioned them."

"The Archer, I suppose," nodded Sir John. "He's a very famous man, but like his profession dry as dust, no doubt." "He wasn't dry," protested Hugo, enthusiasm making him forget the attentive eye upon him. "He was a wonder. I had an idea I'd like to go in for that kind of thing myself and I read up quite a lot. I began to learn Arabic too, but all that is dishonored now, naturally."

The last words were spoken in a nonchalant tone as was only decent in Hugo's code, but the fire of the beginning had been unmistakable.

"I should go on with the reading if I were you," advised Sir John, "and don't be too sure of the rest. Just concentrate on getting as it as you can and giving science a first rate chance, for nothing she can do for you is going to be left untold, as of course you know. Or is that another of the things they have kept dark?"

There was a twinkle in the old man's eyes and Hugo met it with a friendly grin.

"They never breathe a word," he declared.

Dr. Hissop returned at this moment, had a few facetious words with his patient, then carried the specialist away, but Sir John left hope behind him, for perhaps he was a messenger.

Hugo could not know that by his eager tale of Archer he had fanned the flame of the boy's white face and startled glance at mention of the Assyrian writing, would have endeavored to trace that reaction to its source. Now he merely saw it in a corollary to the patient's thwarted ambition, a thing too normal in the circumstances to have any bearing on shattered nerves that led him to hope his mother was a widow and to talk strangely to the doctor about deaths in the family.

Hugo's message to his father did not get through.

LETTER FROM MRS. PAUL MONTY TO HER HUSBAND, UNPOSTED.

March 19th.

My dearest:

Now I am here in my little room in Clapham with long hours when I am bound to have nothing to do but think. I am going to write to you all the things that happen even though you won't get the letter for a long time even if you get it at all. It will be like talking to you, Paul darling, and besides, I can't bear to think there should be any part of my life which was married that you may feel you didn't share.

I have quite a nice little room with pictures round the walls at regular intervals, all looking brown in patches as though they had been in a fire. They belong to the fluffy Victorian order (Christmas supplement) when women folded their lily white hands weekly and looked up to the men with awe. They led perfectly blameless lives . . . you can see them doing it, a real dissipation being to gather roses.

From a corner of my window I can just see the Common beginning to turn green, and fluffy like the Victorian ladies, but the rest of the outlook is a bare wall and I generally look at that, for why should I have a better view than you?

Four Teams Challenge Tech's Claim to Conference Title

Two Are Tied In Percentage With Tornado

V. P. I. and L. S. U. Behind; All Have Close Games But Come Through.

BY HORACE C. RENEGAR, Associated Press Sports Writer.

The five unbeaten and untied football teams within the Southern conference have survived another week's tests and now face the final hurdles, with the slightest break likely to shake up the whole Dixie championship race.

Florida's terrible Alligators, the sophomore sensations of Tennessee and Georgia Tech's great all-around team maintain their leadership dead-lock with five victories, no defeats and no ties each, while the Pony Express of Virginia Polytechnic institute, with four triumphs and a perfect record, rides a close second. Louisiana State's Tigers are right behind with three victories, no defeats and no ties.

All the title hopefuls received a scare yesterday, however. A whirling, devastating Tornado from Alabama gave the Yellow Jackets of Georgia Tech the greatest shock of the season, holding the big Gold team from the Atlanta flats to a 13-to-13 tie through three quarters, but finally succumbing before rushes of Mizell, Thompson and Dunlap late in the final period. Tech finally crushed a great Tusculosa fighting spirit to win, 33 to 13.

Tennessee broke a long-standing jinx at Nashville and defeated the Commodores of Vanderbilt, 6 to 0. It was the third time the Knoxville eleven had beaten the Nashville team, 24 starts, the last victory having been registered in 1916. The lone touchdown came on a 16-yard pass from Captain Boyd to Dunlap late in the game.

Many See Games. Both the Tide-Tornado battle and Vol-Commodore games attracted approximately 25,000 fans, while a great gathering witnessed Florida's victory over Clemson at Jacksonville.

The Alligators, although trailing the Calhoun, 8 to 6, came back in the next quarter to take a 7-to-6 lead, and increased this margin through the great running, exhibiting the prowess of Cannonball Clyde Crabtree and mates. Brumblough, halfback, and Cawthon, fullback, scored touchdowns, while Van Sickle, star lineman, aided the other. In first downs, however, the Tigers made a good showing, chalking up 10 against 13 for the Alligators.

L. S. U. and Georgia Tech. Coach Cohen's Baton Rouge team had the closest call of the day among the unbeaten outfits, barely managing to nose Georgia out at Baton Rouge, 12 to 12. Guy Nasson's toe was the margin, the big tackle kicking one from place, while the Bulldogs missed in first downs, Georgia led, 9 against 7.

Virginia Poly also had a close call in beating the Generals of Washington and Lee at Lexington, 13 to 7. Owens, fullback, went over for both Gobler touchdowns. Kentucky's Wildcats won their second conference game by walloping the Flying Cadets of Virginia Military Institute, 18 to 6. Tulane gave Sewanee a 41-to-6 drubbing, the fourth conference loss of the year for the Tennessee mountaineers. Baker ran over two of the touchdowns.

Maryland Is Victor. Maryland took Virginia into camp at College Park, 18 to 0. Snyder, trampler of Yale, again starring.

The Auburn Plainsmen lost their sixth straight conference start of the season, bowing to Mississippi A. & M.'s Maroons at Birmingham, 13 to 0. North Carolina, playing unaffiliated Davidson, won, 30 to 7, after the Tarheels had trailed during the first half. North Carolina State, playing Duke, another outsider, lost 14 to 12.

The Gamecocks of South Carolina won over Furman, strong Southern Intercollegiate Athletic association affiliate, 6 to 0. Mississippi University defeated Southwestern University, of the S. I. A. A., 34 to 2.

Western Heights Team Go to Tate

Two teams from the Western Heights Baptist church, entries in the Dixie League of the Y. C. A. A., will journey to Tate for a couple of games with the girls' and boys' teams of that city Saturday.

Coaches Nichols, and O'Connor, have had good attendance for the practice sessions for the last week and they are looking on this game as a real test for both teams, as this will be the first out of town game this season.

The only game that the Heights boys have on the wrong side of the board was played at the school court last week with the strong Gulf crew, two times winners of the City league championship.

Coaches Nichols and O'Connor will carry 15 players on this trip to the Marble City, those making the trip including Clark, Moon, Dobbs, Croker, Reed, Nichols, McMillan, McCarley and Captain Roy Strain, on the boys' team and Rogers, Jones, Dilor, Cobb, Vandergiff, Smith, Bennett and Captain Sarah Garner on the girls' team.

Two Techs, Carnegie and Georgia, Establish Rights to Place in Sun

Northern School, However, Faces Real Test Saturday in N. Y. University.

BY GRANTLAND RICE, Special.

It fell to the city of Pittsburgh to unroll the two prize packages Saturday. It was not so much that Carnegie Tech beat Notre Dame or that Pittsburgh held Nebraska to a tie, but the rather astounding part was that Carnegie Tech should, smother, overwhelm and annihilate a team that looked as strong as Notre Dame looked to be a week ago against the Army.

And that a lighter Pittsburgh team should travel all the way to Lincoln and keep a powerful rock-crushing Nebraska from making a first down was something beyond the figuring of any imagination, however wild and it might have been.

The strange part of the story to date is that in spite of the somewhat tempestuous turmoil of an up and down season, so many leading teams are coming down the stretch unbeaten.

Only a partial list includes Carnegie Tech, Boston college, Princeton and Villa Nova in the east; Wisconsin, Detroit and Ohio Wesleyan in the midwest; Nebraska in the Missouri valley; California and Southern California on the coast; Georgia Tech, Florida and Tennessee in the south. Out of the lot Carnegie Tech has the most impressive record of this romping season with victories over three such powerful teams as Pittsburgh, Georgetown and Notre Dame.

Carnegie Tech's powerful array has run up 46 points to 7 against this powerful trio, and that calls for a lot of footwork. But Carnegie Tech has been New York university left and that means that even Carnegie Tech is far from being safe.

Low was the season's tallest football oak that crashed Saturday when a fine Wisconsin team left no element of doubt as to the final result.

Even the fact that the game was played on a field soaked by 38 hours of rain and snow failed to offer an adequate alibi for the heretofore undefeated and untied aggregation which had clinched Big Six honors and seemed headed for a good claim at the national title yesterday's contest. Critics pointed out that such a field should have been more of a handicap to the lighter Pitt eleven, which had developed many plays requiring perfect timing, than to the plugging Huskies and the statistics of the game show Pitt made seven first downs to none for Nebraska, and gained three times as many yards from scrimmage.

The other Big Six bid for intersectional honors also was a failure, Missouri bowing to New York University in New York, 6 to 27.

Ohio State, which had been the Nebraska rout of the week previous, used strategy to beat Kansas, 7 to 0. Kansas has not scored a point for four games.

Iowa State ended its Big Six schedule with a 200 rating—two wins, two defeats and a tie—by beating the Kansas Aggies, 13 to 0.

Princeton Wins Game. Princeton beat Yale by better all-around football than the Tiger, with faster, harder running backs. Princeton's vast superiority in the passing game was a vital factor for this passing attack helped to open the Blue defense where the Tiger had little to worry about when Yale began her passing.

The game was almost a foregone conclusion as Princeton's passing game did more of ground work than Princeton's running game. Princeton's passing game was a vital factor for this passing attack helped to open the Blue defense where the Tiger had little to worry about when Yale began her passing.

Princeton's passing game was a vital factor for this passing attack helped to open the Blue defense where the Tiger had little to worry about when Yale began her passing.

On Nebraska's scoreless tie with Pittsburgh Saturday.

Even the fact that the game was played on a field soaked by 38 hours of rain and snow failed to offer an adequate alibi for the heretofore undefeated and untied aggregation which had clinched Big Six honors and seemed headed for a good claim at the national title yesterday's contest. Critics pointed out that such a field should have been more of a handicap to the lighter Pitt eleven, which had developed many plays requiring perfect timing, than to the plugging Huskies and the statistics of the game show Pitt made seven first downs to none for Nebraska, and gained three times as many yards from scrimmage.

The other Big Six bid for intersectional honors also was a failure, Missouri bowing to New York University in New York, 6 to 27.

Ohio State, which had been the Nebraska rout of the week previous, used strategy to beat Kansas, 7 to 0. Kansas has not scored a point for four games.

Iowa State ended its Big Six schedule with a 200 rating—two wins, two defeats and a tie—by beating the Kansas Aggies, 13 to 0.

Princeton Wins Game. Princeton beat Yale by better all-around football than the Tiger, with faster, harder running backs. Princeton's vast superiority in the passing game was a vital factor for this passing attack helped to open the Blue defense where the Tiger had little to worry about when Yale began her passing.

The game was almost a foregone conclusion as Princeton's passing game did more of ground work than Princeton's running game. Princeton's passing game was a vital factor for this passing attack helped to open the Blue defense where the Tiger had little to worry about when Yale began her passing.

Princeton's passing game was a vital factor for this passing attack helped to open the Blue defense where the Tiger had little to worry about when Yale began her passing.

All-Star Polo Team Defeats Myer's Riders

Virginia Quartet Rated Four Goals Better But Loses by 5-to-7 Margin.

BY BEN COTHMAN.

Exciting as a Tech-Georgia football game, exhilarating as having a 100-to-1 shot gallop home in front and fast as a small boy clutching a policeman was the polo game played Sunday afternoon at Fort McPherson between a picked team from Fort McPherson and the Horse Guards and the four from Fort Myer. The chosen four won by a score of seven goals to five.

The chosen four, brilliant, spectacular drives and carried down the field by Christian and Moran, of the Horse Guards, but it was the continual, steady, brilliant play of Major Gus Tolson, who entered after the first chucker from the Fort McPherson team that greatly aided the Atlantaians in driving ahead of the hard-hitting, accurate Virginians.

Handicap Rejected. Fort Myer, rated as a seven-goal team, was asked for no handicap by the Atlantaians, a three-goal combination. The Fort Myer four were riding strange mounts on a strange field. So the Atlantaians played them "on the flat" and won.

It was probably the best polo game that Atlanta has ever seen and a large crowd of citizens was on hand despite threatening weather. And for eight action-filled chukkers, they saw polo that was brilliant and of the best.

Fort Myer players proved themselves expert horsemen by the manner in which they handled their strange mounts down from the good snags of the Horse Guards and McPherson. That, however, was overshadowed by their accurate stroking and team-work.

The Fort Myer made his equally well-played game, but he was out of the game from the near side or the off side, and frontward or backward. When one player called to another one to back up to the end, the other was told to leave the ball for another that was done.

Defense Is Good. But the sides played fast polo, its defensive work was good—due to the tactics employed by Tolson in effectively riding Fort Myer men off the ball and his raising of the defensive thrust brought about victory.

The game wasn't won until the final chucker. Atlanta went ahead in the seventh, 5-4, then Fort Myer scored one in the opening minute of the eighth to tie it up.

Fort Myer players, Christian, at No. 3, of the Horse Guards entered the line-light. He had pulled off several thrilling plays before. But his best work came when he kicked the ball into the goal, scoring two goals that won the game. One of them he made single-handedly. The ball was in the air, and he kicked it into the goal.

Christian, with a pretty shot, sent the ball across the field, followed it up and centering it towards the goal, he scored a goal. Tolson, for a goal. It was due partly to Christian's effective stroking, but the speed with which he kicked the ball into the goal was a big part in the play.

Another Goal. This goal was followed by another one. It was fast growing dark. The teams were scrambling in mid-field when Frank connected solidly with the ball, scoring a goal. Tolson, for a goal. It was due partly to Christian's effective stroking, but the speed with which he kicked the ball into the goal was a big part in the play.

McClure knocked one in from the side of the field in the third to put Fort Myer ahead once more. But shortly after this, Moran made the prettiest goal shot of the year. A Fort Myer man, galloping down, made a solid back-hand shot and Moran, in mid-field, met the ball squarely and solidly and sent it whizzing back down the field for a goal.

Thus it continued. Perry scored for Fort Myer in the third and the visitors scored in the fourth. Tolson, for a goal. It was due partly to Christian's effective stroking, but the speed with which he kicked the ball into the goal was a big part in the play.

Recollection.

SOMEHOW it seems a bit difficult to pass over that Tech-Alabama game as just "another one of those things," and let it go at that. So many things happened in that game of football that can only be grasped by sober second thought.

Sitting in the press box Saturday, listening to a stand full of fans all nearly crazed with excitement and watching two football teams clutch at each other's throats, just a glimmering of what was really going on seeped into our addled brain.

That run of Warner Mizell's, for example. More than 22,000 fans saw that feat and they saw what many experts declared to be one of the finest pieces of individual headwork and ability ever displayed on any gridiron. Look back through your own recollection. You may remember a kicker who took a snap from center too low to punt and after being rushed, skirted the end of the line for a good gain. You have seen a punter get set for a kick and then choose to run the ball but did you ever see a man completely fumble a snap when he was fully intending to punt then snatch up the ball and slip through the entire team for 75 yards and a touchdown? Did you ever?

Did you ever see one man carry the ball from scrimmage 21 times in a game against a nearly equal team for an average gain of nearly 11 yards per try? When? That's what Warner Mizell did yesterday.

Do you remember having seen any team score more than seven points against Georgia Tech on Grant field in two years? You do not because it wasn't done until Saturday when Alabama turned the trick. Georgia scored two touchdowns against Tech the last time they were treated that way until Saturday.

Since the days of the old Golden Tornado 10 years ago when have you seen six touchdowns scored by two teams on Grant field in about 20 minutes? That's what happened Saturday. Take 10 minutes from the last of the first period and the first of the second period then jump to the last 10 minutes of the game and you will find that six touchdowns were scored in about 20 minutes.

When have you seen a Tech team score five touchdowns while counting but five first downs during the periods in which they scored? That is not Tech style but that game Saturday upset all style. When have you seen one team punt but four times against good opposition? Tech did that Saturday. When have you seen a player from the kicking team pick up a kickoff and nearly make a touchdown? When have you seen a lot of things that made that game the most hectic of recent years on Grant field?

It remained for the middle west to hit back with a decisive 19 to 0 victory over Fordham by a great Detroit eleven with a winning streak extending into last season and with a good claim to national honors at this stage. Gus Dorais, old Notre Dame teammate of Knute Rockne, is its coach.

Besides the victories of Carnegie and N. Y. U., Pittsburgh upheld the eastern banner well by blotting the record of Nebraska with a scoreless tie at Lincoln and coming closer to victory than the home team did. The Army, which meets Nebraska Saturday at West Point, won easily from Carlton, small mid-western college, 32 to 7.

The Constitution's Weekly Business Review

EDITED BY M. D. GLEASON

EDUCATION PLAYS IMPORTANT PART IN SALES SUCCESS

"Education is a great factor in the progress of most any kind of business," says H. D. Simon, president of the Superior Mattress company, of 835 Bankhead avenue.

"A few years ago my partner, W. D. Meadors, and I opened a mattress renovating plant, our principle and I may say our only assets at that time, was that we were both experienced workmen.

good grade of coal as the one who calls at the yard and picks it out.

"Another thing that long ago manifested itself to us was that the customers that bought our best coal were the ones that expected to get themselves as being the best pleased. For the last several years we have been telling all customers the best coal was the cheapest to buy as it would be free from clinkers, leave less ash and give more heat per unit of weight. And we have found that the best coal was the one that cost a few cents less."

"In our delivery service," concluded Mr. Hunter, "we serve any and all parts of Atlanta, College Park, East Point, Hapeville, the MacDonald road section, Bolton, Buckhead,

"Success, however, was not coming as fast as we would like to see it. Yet we knew, all new or renovated mattresses were done as perfectly as humankind possibly. Slowly, however, our first customers were telling us that they were getting a better idea of what nice work we could do and trade began to pick up.

"Then we began our campaign of educating the people to the fact that we were making a difference in their lives. The people themselves had the real basic and big cost that goes into a mattress in the filling of the mattress. Our salesmen then supplied them with sales talks with written articles on mattress renovating and began to call on the housewives of the neighborhood vicinity. The result was that we began to put on a pickup truck, one after another, to call for

fact that we keep our delivery service just ahead of our demand we can guarantee an order received over our telephone, Main 8088, will be on the way in less than one hour after it has been received. We say to the newcomers in Atlanta, as well as the old residents here, give us just one trial order to show you how to get the best "real values for your money."

making over their old mattresses, and that the spring of the year was just the right time to do it. But we began to call their attention to how absurd

this was and a hard, lumpy mattress was just as hard to sleep on in November and December as it would be in April and May. The educated man and woman knew we were right, and we have now as much work in the shop as in the spring of the year."

Mr. Meadors, who looks after the outside salesmen here, called attention to the fact that upon a telephone call, Hemlock 9274, they would send a large variety of samples in new and old style tickings in order that the owner of a mattress could decide in

HIGH LIGHTS OF HISTORY

THE TROOPS WERE EAGER TO FACE THE SPANIARDS, BUT THE EXPEDITION LACKED MANY NECESSARY THINGS. FOR WANT OF SHIPS THE CAVALRY (WITH THE EXCEPTION OF ONE SQUADRON OF THE 2ND REGIMENT) HAD BEEN OBLIGED TO LEAVE THEIR HORSES IN TAMPA, AND ONLY THREE AMBULANCES HAD BEEN BROUGHT ALONG FOR THE ENTIRE DIVISION.

RADIOING THE AIR WAVES

BY THE DIAL TWISTER.

Giovanni Martinelli, tenor of the Metropolitan Opera company, will be the featured soloist of the General Motors family party to be broadcast through WSB and the N. B. C. system at 8:30 o'clock tonight. Supporting Mr. Martinelli will be the General Motors concert orchestra, under the direction of Gennaro Papi, former conductor at the Metropolitan. The whole General Motors family will act as host.

Mr. Martinelli's career, which has carried him from obscurity to his present position as one of the great tenors of all time, is the more remarkable in that it has occupied less than eighteen years. His first public appearance as a vocalist was December 3, 1910, in Rossini's "Stabat Mater," in Milan, Italy. A fortnight later, he made his operatic debut in "Ernani."

The next year, while Martinelli was singing in Ancona, his work attracted the attention of Puccini, and as a result of the composer's interest in the young tenor was given a role in the Rome production of "The Girl of the Golden West." Success followed quickly in Genoa, Naples, Monte Carlo, Brescia, Turin, Budapest and Brussels.

In 1912, Martinelli made his London debut at the Covent Garden, where he created a sensation. Since 1913 he has been a regular member of the Metropolitan Opera company. This singer's virility and greatness as a man have been just as important as his voice in carrying him to success. Wherever he has appeared his audiences and his fellow artists have agreed in proclaiming his greatness. Gatti-Casazza, general manager of the Metropolitan opera, has said that if all great vocalists were like Martinelli the work of musical impresarios would be sinecures, for this great artist is in every sense a man. He requires none of the "babbling" tactics which must be used in handling many stars. His temperament never degenerates into temper. He possesses a businesslike regard for time and place. He is consistent and dependable.

Noontime listeners to "Farm and Home Hour" today will hear Mrs. Helen Stevens Fisher, Montgomery Ward & Co. home advisor, telling "More About the Home That Alice and Maude Are Furnishing," a talk designed to be instructive as well as entertaining. This program will be broadcast over WSB from the Chicago studios of the National Broadcasting company at noon.

The Homeleader, master of ceremonies, will be another verbal feature of the Monday farm and home program, telling of new discoveries in practical farm and reading the latest news flashes from his daily "Bulletin Board." The Trail Blazers orchestra, popular daytime entertainers, will feature a whimsical selection, "By the Candle Light," and will present Joe Warner, their rollicking songster, singing "Under the Wurzburger Tree."

Following are complete details: Spirit of Progress March—Trail Blazers That's My Weakness Now—Trail Blazers How to Do It—Trail Blazers Under the Wurzburger Tree—Joe Warner 12:00-12:15 P. M.—Official program by United States department of agriculture from B. C. studio, Washington, D. C. Novelty Selection—Al and Wes More About Alice and Maude—Trail Blazers

T. A. D. Jones, head coach of Yale's famous football team for seven years, will be the speaker during the A. C. Gilbert Sports program for boys, to be broadcast through WSB and the N. B. C. system at 6:30 o'clock tonight.

Boys and their parents will both be eager to hear Mr. Jones talk on the fine points of football. Jones will be introduced to the radio audience by Alfred C. Gilbert, president of the Gilbert company, and the Ector Buddies will play and sing Yale's popular football songs.

Ruth Ann Watson, mezzo-soprano soloist, will be heard with Roxy and His Gang during the program to be broadcast through WSB and the N. B. C. system at 8:30 o'clock tonight.

Miss Watson comes from Kansas and will sing "The Heart of Her," and "The Russian Peasant Dance." An extra number the orchestra will play Wood's lively melody, "Roses of Picardy."

Light popular airs and excerpts from current musical plays will fill the program of the Ceco Couriers to be broadcast by the Columbia system tonight at 7 o'clock.

The orchestra, assisted by tenor and quartet, will usher in the program with their usual theme song, and will follow it with "Pomp and Circumstance," a hit from the new musical comedy, "Three Cheers." Other numbers, played by the orchestra, will include "You

8:30 P. M.—General Motors family party, N. B. C. feature.
9:30 P. M.—Community Chest message.
10:45 P. M.—Mrs. W. A. Wallace, pianist; Kirk Devore, tenor; Rudy Brown and his orchestra.

City, Mo., where she took up the study of music while still very young. She came to New York several years ago after a tour of the largest cities of the east. Her career in the metropolis is marked by principal roles in the musical comedy field, including such successes as "The Love Call" and "A Night in Paris."

Selections by other vocal artists, instrumentalists and the symphony orchestra will also form a part of the program.

The long-talked-of and over-rehearsed play, "Still Waters Run Deep," is to be produced in Thompson's Corners during the Cheesbrough "Real Folks" broadcast through KDKA and the N. B. C. system at 8:30 o'clock tonight.

All the historic talent of the community has been recruited for the event. The whole town is agog with excitement over the possible discovery of a second Duse or Edwin Booth.

Mrs. Watts will take the stellar role, Charlie Kehoe, despite his protests, is slated to appear as the villain of the piece.

In fact, so many of the folks of the neighborhood are in the cast, that some concern is felt over who will be left to applaud as audience.

The proceeds of the play, as was decided at the dress rehearsal, will go toward the support of the baby that Matt Thompson has adopted.

"O Sentimento," an Italian air by Falco, will be the solo duet by Giuseppe di Benedetto, tenor, and Darl Bethmann, baritone, during the Neapolitan Nights feature to be broadcast through KDKA and the N. B. C. system at 8:30 o'clock tonight.

A male octet, whose members are Harold Steele and Henry Shope, first tenors; Stene Jamison and Maurice Tyler, second tenors; Earl Bachmann and Taylor Buckley, baritones, and Leon Salathiel and Emil Cote, basses, will sing Valenti's "Notte Sul Mare," and "Carmela," by de Curtis.

An instrumental ensemble will contribute several numbers to this program of favorite Neapolitan tunes.

Light popular airs and excerpts from current musical plays will fill the program of the Ceco Couriers to be broadcast by the Columbia system tonight at 7 o'clock.

The orchestra, assisted by tenor and quartet, will usher in the program with their usual theme song, and will follow it with "Pomp and Circumstance," a hit from the new musical comedy, "Three Cheers." Other numbers, played by the orchestra, will include "You

TOOK ADVANTAGE OF ME

That's My Weakness Now, and a Faulty Fantasy.

According to popular demand, the United Choral Singers will be heard in a request program to be broadcast by the Columbia system this evening at 7:30 o'clock.

This organization, which has been broadcasting weekly with such success, is under the direction of E. Channon Collins, two of whose songs have been selected by the radio audience to be heard in their next program. This program also includes the well-known "Minuet" of Padewski, more generally played as a piano solo, and will conclude with a stirring rendition of the Battle Hymn of the Republic.

Selections from the best of the current musical comedies will make up the program of the Lowrey Radio Hour to be broadcast on the Columbia system at 8 o'clock tonight.

The Lowrey Salon Orchestra, under the direction of Jack Shilskret, will present at this time a generous number of popular hits, including numbers from "Blackbirds of 1928," "Hold Everything" and "Good Boy."

Ruth Manning, popular soprano, will vary the program by giving solos of popular songs, including "The Love Call," the hit of "Will Rogers' starring vehicle, "Three Cheers."

The internationally-known pair of singers, classical in style and popular in song, are to be featured guest artists of the Vitaphone Jubilee hour to be broadcast by the Columbia system at 8:30 o'clock tonight.

They will be supported by the regular Green Room motion picture studio crowd under command of the skipper, Ed Sullivan. The program includes a popular orchestra, together with instrumental and vocal soloists, as well as a male quartet and a vocal chorus.

Ed Sullivan and Sara Kounis have been known for many years as the "Will Rogers' starring vehicle, "Three Cheers."

Ed Sullivan and Sara Kounis have been known for many years as the "Will Rogers' starring vehicle, "Three Cheers."

The internationally-known pair of singers, classical in style and popular in song, are to be featured guest artists of the Vitaphone Jubilee hour to be broadcast by the Columbia system at 8:30 o'clock tonight.

They will be supported by the regular Green Room motion picture studio crowd under command of the skipper, Ed Sullivan. The program includes a popular orchestra, together with instrumental and vocal soloists, as well as a male quartet and a vocal chorus.

RADIO IS WINTER LINK

TO FAR POLAR REGIONS

Messages Sent to Folk in Frozen North on Regular Weekly Schedule.

BY MARTIN CODELL.
(Special Dispatch to The Constitution and North American Newspaper Alliance.)
Washington, November 18.—Up in the arctic regions, lacking a proper word in their language, the Eskimos have adopted KDKA as their ideal meaning "radio." Thus, naively, they have been taught to the pioneer broadcasting station at East Pittsburgh which will resume its annual far north broadcasts, along with the other stations of the Westinghouse group.

Those of the radio audience able to tune in KYY-KFKX, Chicago, late last Saturday night heard the first of this winter's weekly schedule of messages from Westinghouse stations to folk in the frozen north.

The station, which has been broadcasting since 1922, has been heard by the Byrd antarctic expedition.

Some doubt existed today whether the station, which only 5,000 watts of power, carried far into the arctic or subarctic, in view of weather conditions in the United States and the arctic regions, would be able to reach American stations on nearby channels.

But all the messages, and other broadcasts, were received by stations WBZ-WBZ, Springfield, and Boston, last Saturday night, and again over KDKA's 50,000-watt transmitter.
